**The Exploding Cities** Peter Wilsher, Rosemary Righter, 1977      **The Exploding Cities** Peter Wilsher, Rosemary Righter, 1975      **The Exploding Cities** Sunday Times, 1974      **The Exploding Cities** Peter Wilsher, Rosemary Righter, 1975      **The Exploding Cities of the Developing World** Eugene Linden,      **Gospel for the Cities** Benjamin Tonna, 2004-10-28

Traditionally the city has been the locus for the development of civilization. The scholars, the poets, the persons of commerce and politics came to the city for inspiration and acceptance. The city has been both an intriguing place and a place of intrigue. For weal or woe, the city fashions our culture while altering cultures. The person who wishes to analyze with competence the sociological and theological dimensions of the city would do well to study thoroughly *Gospel for the Cities*. It is a study for us who live and work in the urban centers of North America as well as for the missionary today who must bring deep insight, biblical, historical, and sociological to the awesome task of working in the cities of the twenty-first century across the world. We have waited long for this book. Msgr. John J. Egan, University of Notre Dame. Many books have been written about cities and urbanization. But in an era of severe compartmentalization in knowledge, they have come from specialists in one discipline. Thus we have the sociology of the city, the city in history, or the challenge of the city to the church. Now this unique volume provides a genuine and compelling interface between competent social analysis and historical description with first-rate mission theology and a solid biblical perspective. This difficult task has been accomplished with depth and comprehensiveness by Benjamin Tonna in a book of particular relevance to the Third World but useful to all of us committed to concern for the cities in God's world. George W. Webber, President, New York Theological Seminary.

**Exploding Cities (video - 30 Mins).** , 1978      **The Exploding Cities** Peter Wilsher, 1975      **Cities of Tomorrow** Peter Hall, 2014-04-17

Peter Hall's seminal *Cities of Tomorrow* remains an unrivalled account of the history of planning in theory and practice as well as of the social and economic problems and opportunities that gave rise to it. Now comprehensively revised, the fourth edition offers a perceptive critical and global history of urban planning and design throughout the twentieth century and beyond. A revised and updated edition of this classic text from one of the most notable figures in the field of urban planning and design. Offers an incisive, insightful, and unrivalled critical history of planning in theory and practice as well as of the underlying socio-economic challenges and opportunities. Comprehensively revised to take account of abundant new research published over the last decade. Reviews the development of the modern planning movement over the entire span of the twentieth century and beyond. Draws on global examples throughout and weaves the author's own fascinating experiences into the text to illustrate this authoritative story of urban growth. [Introduction to Cities](#) Xiangming Chen, Anthony M. Orum, Krista E. Paulsen, 2018-04-30

The revised and updated second edition of *Introduction to Cities* explores why cities are such a vital part of the human experience and how they shape our everyday lives. Written in engaging and accessible terms, *Introduction to Cities* examines the study of cities through two central

concepts that cities are places where people live form communities and establish their own identities and that they are spaces such as the inner city and the suburb that offer a way to configure and shape the material world and natural environment Introduction to Cities covers the theory of cities from an historical perspective right through to the most recent theoretical developments The authors offer a balanced account of life in cities and explore both positive and negative themes In addition the text takes a global approach with examples ranging from Berlin and Chicago to Shanghai and Mumbai The book is extensively illustrated with updated maps charts tables and photographs This new edition also includes a new section on urban planning as well as new chapters on cities as contested spaces exploring power and politics in an urban context It contains information on the status of poor and marginalized groups and the impact of neoliberal policies material on gender and sexuality and presents a greater range of geographies with more attention to European Latin American and African cities Revised and updated Introduction to Cities provides a complete introduction to the history evolution and future of our modern cities

**Inert Cities** Stephanie Hemelryk Donald, Christoph Lindner, 2014-10-01 We usually associate contemporary urban life with movement and speed But what about those instances when the forms of mobility associated with globalized cities the flow of capital people labour and information freeze or decelerate How can we assess the value of interruption in a city What does valuing stillness mean in regards to the forward march of globalization When does inertia presage decay and when does it promise immanence and rebirth Bringing together original contributions by international specialists from the fields of architecture photography film sociology and cultural analysis this cutting edge book considers the poetics and politics of inertia in cities ranging from Amsterdam Berlin Beirut and Paris to Beijing New York Sydney and Tokyo Chapters explore what happens when photography film mixed media works architecture and design intervene in public spaces and urban communities to disrupt speed and growth both intellectually and or practically and question the degree to which mobility is aspirational or imaginary absolute or transient Together they encourage a re assessment of what it means to be urban in an unevenly globalizing world to live in cities built around mythologies of perpetual progress These new analyses of visual culture s strategic interruptions in global cities allow a more in depth understanding of the new forms of space experience and community that are emerging in today s rapidly transforming urban environments
