Switch-Reference and Discourse Representation Lesley Stirling, 1993-03-11 This book argues that types of anaphoric linkage across clause boundaries cannot be adequately accounted for by Binding Theory proposing instead an account for them which is formalised in Discourse Representation Theory

Routledge Dictionary of Language and Linguistics Hadumod Bussmann, 2006-02-20 The Routledge Dictionary of Language and Linguistics is a unique reference work for students and teachers of linguistics The highly regarded second edition of the *Lexikon der Sprachwissenschaft* by Hadumod Bussmann has been specifically adapted by a team of over thirty specialist linguists to form the most comprehensive and up to date work of its kind in the English language In over 2 500 entries the Dictionary provides an exhaustive survey of the key terminology and languages of more than 30 subdisciplines of linguistics With its term based approach and emphasis on clear analysis it complements perfectly Routledge's established range of reference material in the field of linguistics

Studies in African Linguistic Typology F. K. Erhard Voeltz, 2006-03-22 The twenty one papers that make up this volume reflect the broad perspective of African linguistic typology studies today Where previous volumes would present language material from a very restricted area and perspective the present contributions reflect the global interest and orientation of current African linguistic studies The studies are nearly all implicational in nature Based upon a detailed survey of a particular linguistic phenomenon in a given language or language area conclusions are drawn about the general nature about this phenomenon in the languages of Africa and beyond They represent as such a first step that may ultimately lead to a more thorough understanding of African linguistic structures This approach is well justified Taking the other road attempting to pick out linguistic details from often fairly superficially documented languages runs the risk that the data and its implications for the structure investigated might be misunderstood Consequentially only very few studies of this nature giving the very broad perspective the overview of a particular structure type covering the whole African continent are represented here
