ChatGPT:
Nice to meet you! You were one of the first portable computers released by IBM back in 1984. Your compact size and built-in monochrome monitor made you a popular choice for business professionals who needed to work on-the-go. You had a 4.77 MHz Intel 8088 processor and 256 KB of RAM, which may seem small by today's standards, but was quite impressive back then. Do you have any interesting stories from your early days?
