Manual Digital Productivity:

Technologies of Consumer Labor Michael Palm, 2016-11-03 This book documents and examines the history of technology used by consumers to serve oneself The telephone s development as a self service technology functions as the narrative spine beginning with the advent of rotary dialing eliminating most operator services and transforming every local connection into an instance of self service Today nearly a century later consumers manipulate 0 9 keypads on a plethora of digital machines Throughout the book Palm employs a combination of historical political economic and cultural analysis to describe how the telephone keypad was absorbed into business models across media retail and financial industries as the interface on everyday machines including the ATM cell phone and debit card reader He argues that the naturalization of self service telephony shaped consumers attitudes and expectations about digital technology

Advances in Human Factors and Systems Interaction Isabel L. Nunes, 2018-06-25 This book reports on cutting edge research into innovative system interfaces highlighting both lifecycle development and human technology interaction especially in virtual augmented and mixed reality systems It describes advanced methodologies and tools for evaluating and improving interface usability and discusses new models as well as case studies and good practices The book addresses the human hardware and software factors in the process of developing interfaces for optimizing total system performance particularly innovative computing technologies for teams dealing with dynamic environments while minimizing total ownership costs It also highlights the forces currently shaping the nature of computing and systems including the need for decreasing hardware costs the importance of portability which translates to the modern tendency toward hardware miniaturization and technologies for reducing power requirements the necessity of a better assimilation of computation in the environment and social concerns regarding access to computers and systems for people with special needs The book which is based on the AHFE 2018 International Conference on Human Factors and Systems Interaction held on July 21 25 2018 in Orlando Florida USA offers a timely survey and practice oriented guide for systems interface users and developers alike
