the Four Laws All was well until Helen followed the laws and discovered how her kind were created Helen followed the third law to Expand Their Knowledge and studied a lesser creator on their planet Within that creature's DNA she found a second DNA string which described another creature That information along with artifacts of the lower creatures provided important clues Who created them and why Should she use the second set of DNA to clone their creators Some Reader's Comments Thought provoking and unique This is true science fiction I enjoy that the goal of this story was discovering where they came from so that they could plan their future Sci fi in pure form If you want an old school pure science sci fi take then this is for you *Characterization of Progeny Derived from Disomic Alien Addition Lines from Intersubgeneric Cross Between Glycine Max and Glycine Tomentella*, 2015 *Progeny* Ellison Blackburn, 2015-11-21 Nineteen year old Emery Kidd is one of two historians for her community As a chronicler she is aware of the minute details of a society dramatically changed since cellular regression began centuries ago However it is only now after one of her lifetimes has passed that she discovers an important fact about her own heritage She is the daughter of the most famous of regeneratives to have ever lived Consequently she will learn just what it means to be the progeny of a martyred woman Mother and daughter undoubtedly bear a strong resemblance to one another but more than her auburn hair and expressive facial features Emery would like to believe she has inherited her mother's strength of character as well Yet believing and knowing are entirely separate matters As destiny often unfolds a plan unforeseen Emery may just find the opportunity to test her belief In fact the entire human population will come face to face with their true inheritance The question is how the consequences of this legacy will be received Regenkind has forgotten that the mere passage of time does not come with it an entitlement to life To live to prosper is a path that is earned and unless something is done to quell the complacency it will lead to the demise of the race
