## That Winter:

**So Much for That Winter** Dorthe Nors,2016-06-21 Dorthe Nors follows up her acclaimed story collection *Karate Chop* with a pair of novellas that playfully chart the aftermath of two very twenty first century romances In *Days* a woman in her late thirties records her life in a series of lists giving shape to the tumult of her days one moment she is eating an apple the next she is on the floor howling like a dog As the details accumulate we experience with her the full range of emotions anger loneliness regret pain and also joy as the lists become a way to understand connect to and rebuild her life In *Minna Needs Rehearsal Space* a novella told in headlines an avant garde musician is dumped via text message Fleeing the indignity of the breakup and friends who flaunt their achievements in life career and family Minna unfriends people on Facebook listens to Bach and reads Ingmar Bergman then decamps to an island near Sweden well suited to mental catharsis A cheeky nod to the listicles and bulletins we scroll through on a daily basis *So Much for That Winter* explores how we shape and understand experience and the disconnection and dislocation that define our twenty first century lives with Nors s unique wit and humor

*All's well that ends well ; Twelfth night ; Winter's tale ; King John ; King Richard II ; King Henry IV ; Henry V ; King Henry VI, part 1-2* William Shakespeare,1864 *Lexical Priming* Michael Hoey,2012-10-12 *Lexical Priming* proposes a radical new theory of the lexicon which amounts to a completely new theory of language based on how words are used in the real world Here they are not confined to the definitions given to them in dictionaries but instead interact with other words in common patterns of use Using concrete statistical evidence from a corpus of newspaper English but also referring to travel writing and literary text the author argues that words are primed for use through our experience with them so that everything we know about a word is a product of our encounters with it This knowledge explains how speakers of a language succeed in being fluent creative and natural
