Lopez,David H. Vadas,1991 Fair Redistricting in the 1990s Robert R. Brischetto,1991 **Enlistment Decisions in the 1990s** M. Rebecca Kilburn,Jacob Alex Klerman,1999 This work updates previous estimates of individual enlistment models investigating the relationship between family individual local labor market and other background characteristics and the decision to enlist The study makes three primary innovations to earlier models First it uses data from the early 1990s while the most recent estimates were from the early 1980s The data report the enlistment behavior of a cohort of individuals from the National Educational Longitudinal Study NELS who were high school seniors in 1992 In general the authors find that their coefficient estimates are similar to those estimated by earlier models while the mean levels of the explanatory variables are more often significantly different from those in earlier data Second the authors explore the utility of including some additional variables in the model that are more relevant to the 1990s or were not available in early data These include measures of immigrant status criminal behavior drug use in state college tuition and whether parents were in the military The research finds that immigrant status criminal behavior and having parents in the military are significant determinants of individual enlistment decisions Third the authors estimate the individual enlistment decision as a three choice decision whether to enlist enroll in college or work after high school graduation in contrast to earlier studies which modeled the enlistment decisions as a two way choice of whether to enlist or not The study concludes that the trivariate choice model dominates the bivariate model because it produces more significant coefficient estimates and yields more insights into the reasons that individuals enlist rather than choosing alternative activities **Research Agenda for the 1990s** ,1992 **Strategic Planning for the 1990's** Sharon Lund O'Neil,1990 HDTV--advanced Television for the 1990s K.
