The New World Order Frederick Charles Hicks, 1920

Los Rothschild Alejandro Kaiser, ADVERTENCIA EDITORIAL INVESTIGACION CRITICA Este libro no afirma verdades absolutas ni promueve versiones dogmáticas sobre la historia Su objetivo es examinar de manera documental comparativa y analítica el papel financiero y político de una de las dinastías más influyentes del mundo moderno El lector es invitado a reflexionar contrastar fuentes cuestionar aquello que se asume como incuestionable y observar la historia desde un ángulo menos habitual No se trata de fe sino de preguntas Y las preguntas incómodas suelen abrir las puertas que otros prefieren mantener cerradas Quien nunca se ha preguntado quién mueve realmente los hilos del poder probablemente considerar exagerado pensar que una sola familia con siglos de acumulación financiera diplomática y bancaria pueda tener un papel central en el mundo contemporáneo Quien cree sin cuestionar quien acepta la realidad mediática como dogma y confía en que el sistema vela por su bienestar ver estas páginas como una provocación Lo comprendo Pero el pensamiento crítico no existe para complacer existe para revelar Albert Pike figura histórica del pensamiento simbólico y político dijo una vez Aquellos que no usen sus cerebros serán carne en nuestra mesa Y Goethe sintetizó la paradoja humana en un verso inmortal Nadie está más esclavizado que quien cree ser libre La independencia mental requiere un esfuerzo que pocos están dispuestos

a realizar Este libro indaga documenta y pregunta C mo surgi el poder financiero de los Rothschild Por qu su influencia ha sido tan persistente durante siglos De qu forma interact an con gobiernos bancos centrales y estructuras supranacionales Existe realmente una lite capaz de orientar el destino del mundo O solo estamos proyectando en una familia el miedo a un poder descentralizado y difuso No ofrecemos respuestas prefabricadas sino herramientas para pensar Porque lo anormal no es cuestionar el poder Lo anormal es obedecer sin pensar La sociedad actual acepta con pasividad cosas que hace un siglo habr an sido impensables deuda perpetua vigilancia digital concentraci n medi tica pol ticas econ micas opacas guerras preventivas inflaci n estructural como mecanismo de extracci n silenciosa No porque sean l gicas sino porque fueron normalizadas La locura deja de parecer locura cuando se vuelve h bito Este libro no exige creencia Exige valent a para mirar lo que muchos prefieren no ver Si est s dispuesto a pensar sin tuteladas pasa la p gina Aqu empieza lo que casi nadie se atreve a discutir

9 and 11 Kim H. Veltman,2015-02-23 This is an unlikely story of true events The Day that changed the World in the United States bombing of the Twin Towers the Day of Fate in Germany and the Day of Destiny in Israel are all connected with the 11th day of the 9th month These 9 11 dates entail much more than three events in three countries In the Hebrew tradition they include all the calamities that have befallen the Jews from the time of the Destruction of the First Temple and Second Temple the Expulsion of the Jews from England France Spain through to the Holocaust in World War II These events are in turn part of a larger history which linked the same date with cosmic events such as a day of Cosmic Battle and the Birth of Venus and gave special significance to the numbers 9 and 11 Part one explores this tradition and surveys a range of sources from a former German officer involved in the plot against Hitler to various conspiracy theories These events are also related to swastikas and hexagrams Since World War II there has been a trend to associate swastikas with an evil German Aryan tradition and hexagrams e g six pointed Star of David with a good Jewish Semitic tradition Historically a Jewish connection with the Star of David is late Mediaeval rather than Biblical Swastikas and hexagrams are found in both the Aryan and the Semitic tradition Hence the new trend distorts a complex history More disturbingly in the guise of tolerance and political correctness one version of stories is highlighted others are being suppressed and truth is endangered The New World Order Mortimer N. S. Sellers,1996-08 The end of the Cold War has allowed for the prospect of a New World Order in which the United Nations and other international actors may return to their post war mandate of maintaining international peace and security through collective action This book addresses the central question of sovereignty under the new regime which internal actions of states will justify intervention by the international community The unifying theme of these chapters written from a wide variety of national and cultural perspectives is the conflict between cultural relativism and human rights in the postmodern world Eleven authors address these questions to determine the meaning and limits of national self determination after the fall of communism This book is essential reading for all who seek to understand the emerging international system of the twenty first century The New World ,1920 A New World Order?
