Lake,Ved P. Nanda,1996-06-27 The emergence of Europe as a unified trading block has profound implications for those who do business with European countries European Union Law is written for lawyers and business professionals who require information about the changes that are taking place as a result of the unification process in the member states of the European Union Unlike other materials on Europe this book is written primarily for lawyers outside the EU The book serves three important functions It provides a comprehensive introduction to European law law making institutions and dispute settlement mechanism It presents European legal regimes for the general areas which are relevant to foreign lawyers including corporate law environmental regulation securities regulation antitrust law mergers and

acquisitions licensing product liability and dumping It examines the European regulations of some important specific industries such as broadcasting and telecommunications The editors and authors of this work are among the most prominent academic and professional authorities in the area of European Law This book is the single most useful reference tool for those in need of current European Union information *The EU VAT System and the Internal Market* Rita de La Feria,2009 This thesis focuses upon VAT in the context of the Community s internal market Its central aim is to prove that the current EU VAT system is incompatible with the concept of internal market as set out in the EC Treaty and interpreted by the Court of Justice The study commences with an analysis of the concept of internal market the main objective of which is to establish the basic legal framework for the proposed thesis As part of this examination it is demonstrated that the EC Treaty creates a temporally unlimited obligation for the Community to approve legislation with the aim of establishing and improving the functioning of the internal market By analysis of existing EU VAT jurisprudence it is argued that obstacles cannot be overcome through incremental developments emerging from the Court of Justice but can only be resolved by fundamental and substantive legislative amendment The Effect on English Domestic Law of Membership of the European Communities and of Ratification of the European Convention on Human Rights Michael P.
