The Obvious Elephant:

The Obvious Elephant Bruce Robinson, 2003 **Elephants on the Edge** G. A. Bradshaw, 2009-10-06 At times sad and at times heartwarming Helps us to understand not only elephants but all animals including ourselves Peter Singer author of Animal Liberation Drawing on accounts from India to Africa and California to Tennessee and on research in neuroscience psychology and animal behavior G A Bradshaw explores the minds emotions and lives of elephants Wars starvation mass culls poaching and habitat loss have reduced elephant numbers from more than ten million to a few hundred thousand leaving orphans bereft of the elders who would normally mentor them As a consequence traumatized elephants have become aggressive against people other animals and even one another their behavior is comparable to that of humans who have experienced genocide other types of violence and social collapse By exploring the elephant mind and experience in the wild and in captivity Bradshaw bears witness to the breakdown of ancient elephant cultures But she reminds us all is not lost People are working to save elephants by rescuing orphaned infants and rehabilitating adult zoo and circus elephants using the same principles psychologists apply in treating humans who have survived trauma Bradshaw urges us to support these and other models of elephant recovery and to solve pressing social and environmental crises affecting all animals humans included This book opens the door into the soul of the elephant It will really make you think about our relationship with other animals Temple Grandin author of Animals in Translation *On the Move* Wanjira Kinuthia, Stewart. Marshall, 2013-04-17 This book details how educators have embraced mobile learning presenting scenarios solutions and discussions in resource challenged contexts It appeals to public representatives agencies community groups researchers and students in various fields interested in mobile learning applications **All the Lost Souls (All the Hidden Monsters, Book Two)** Amie Jordan, 2025-11-04 A feud between witches and werewolves Old magic and new romance In Book 2 of the gripping supernatural crime trilogy rising tensions in the Jura Mountains lead Sage and Oren to investigate But neither is prepared for what awaits them Heart warming friendships growing embers of romance and a growing fog that kills everything it touches Sage and Oren are sent to investigate rising tensions between witches and werewolves in the Jura Mountains After dealing with murder this case feels tame punishment for their undeniable connection But there is a darkness that awaits them traces of old magic tortured lost souls ready to put everything they ve worked for to the test The Problem of the State Michael Mair, 2021-05-16 The Problem of the State provides a new perspective on what the social and political sciences can contribute to understandings of the state and the ambivalent place it occupies in our collective affairs Distinguishing two broad conceptual and methodological approaches to addressing the problem of how to study the state empirically rather than theoretically the constitutionalist and constructionist positions the author reviews the grounds and limits of both to reveal their common assumption that it is up to the social and political sciences to define what the problem of the state is Building on insights from Marx Wittgenstein and Ethnomethodology this book frees the study of the state from the limiting

assumptions of common approaches and advocates a return of the problem to its proper environment in social and political practice
