## The Of Festivals:

The First Book of Festivals Anita Ganeri, Mary Saunders, 2005 This title from Anita Ganeri brings together between one and two festivals from each of the six main world faiths Christianity Islam Jewism Sikhism Buddhism and Hinduism explaining their origins and how they are celebrated today Highly illustrated with color photographs the book includes photocopyable activities and further activity suggestions at the back which have been compiled by a qualified nursery teacher An ideal introduction to different faiths their beliefs and their origins for young children *The Pacific Festivals of Aotearoa New Zealand* Jared Mackley-Crump, 2015-04-30 With a history now stretching back four decades Pacific festivals of Aotearoa assert a multicultural identity of New Zealand and situate the country squarely within a sea of islands In this volume Jared Mackley Crump gives a provocative look at the changing demographics and cultural landscape of a place frequently viewed through a bicultural lens P keh and M ori Taking the post World War II migrations of Pacific peoples to New Zealand as its starting point the story begins in 1972 with the inaugural Polynesian Festival an event that was primarily designed as a M ori festival now known as Te Matatini the largest M ori performing arts event in the world Two major moments of festivalization are considered the birth of Polyfest in 1976 and the inaugural Pasifika Festival of 1993 Both began in Auckland the home of the largest Pacific communities in New Zealand and both have spawned a series of events that follow the models they successfully established While Polyfests focus primarily on the transmission of performance traditions from culture bearers to the young largely New Zealand born generations Pasifika festivals are highly public community events in which diverse displays of material culture are offered up for consumption by both cultural tourists and Pacific communities alike Both models have experienced a significant period of growth since 1993 and here the author presents a thought provoking and wide ranging analysis to explain the phenomenon that has been called a Pacific renaissance Written from an ethnomusicological perspective *The Pacific Festivals of Aotearoa New Zealand* incorporates lively first person observations as well as interviews with festival organizers performers and other important historical figures The second half of the book delves into the festival space uncovering new meanings about the function and role of music performance and public festivity The author skillfully challenges accounts that label festivals as inauthentic recreations of culture for tourist audiences and gives both observers and participants an uplifting new approach to understand these events as meaningful and symbolic extensions of the ways diasporic Pacific communities operate in New Zealand *The Hidden Side of Christian Festivals* Charles Webster Leadbeater, 1920 **Origin and Transformation of the Ancient Israelite Festival Calendar** Jan A. Wagenaar, 2005 The book focusses on the origin and transformation of the priestly festival calendar Since the epoch making work of Julius Wellhausen at the end of the 19th century the differences between the various ancient Israelite festival calendars have often been explained in terms of a gradual evolution which shows an increasing historicisation denaturalisation and ritualisation The festivals were in Wellhausen s view gradually detached from agricultural conditions

and celebrated more and more at fixed points in the year This study tries to show that the changes in the priestly festival calendar reflect a conscious effort to adapt the ancient Israelite festival calendar to the semi annual layout of the Babylonian festival year The ramifications of the change only come to the fore after a careful study of the agricultural conditions of ancient Israel and Mesopotamia makes clear that passover and the festival of unleavened bread were originally celebrated in the second month of the year The first month of the year envisaged by the priestly festival calendar for the celebration of passover and the festival of unleavened bread in turn mirrors the date of one of the two semi annual Babylonian New Year festivals The two Babylonian New Year festivals were celebrated exactly six months apart at the vernal and autumnal equinoxes In order to adapt the ancient Israelite festival calendar to the Babylonian scheme with two New Year festivals a year the date of passover and the festival of unleavened bread had to be moved up by one month The consequences for the origin of passover the festival of unleavened bread the festival of weeks and the festival of huts are charted and the relations between the various ancient Israelite festival calendars are determined anew Institutes of Ecclesiastical History, Ancient and Modern Johann Lorenz Mosheim,1854 **Culture and Customs of France** W.
