## **The Secret Service:**

**Secrets of the Secret Service** Gary J. Byrne, Grant M. Schmidt, 2018-01-02 From the author of the 1 New York Times bestseller *Crisis of Character* comes an explosive exposé of the Secret Service The United States Secret Service is tasked with protecting our Presidents their families and the complex in which they live and work Given this important mission world stability rests upon the shoulders of its agents In this book former Secret Service officer Gary Byrne takes readers behind the scenes to understand the agency's history and today's security failings that he believes put Americans at risk The American public knows the stories of Secret Service heroism but they don't know about the hidden legacy of problems that have plagued the agency ever since its creation Byrne says that decades of catastrophic public failures near misses and bureaucratic and cultural rot threaten to erode this critical organization from the inside out Today as it works to protect President Trump the Secret Service stands at a crossroads and the time needed to choose the right course is running out Agents and officers are leaving the Secret Service in droves or they're being overworked to the point where they lose focus on the job Management makes decisions based on politics not the welfare of their employees Byrne believes that this means danger for the men and women of the Secret Service danger for the President they protect and danger for the nation In *Secrets of the Secret Service* he shares what he has witnessed and learned about the agency with the hope that its problems can be fixed before it's too late

***Protecting the President*** Dan Bongino, 2021-01-12 Being a Secret Service agent is one of the most treacherous jobs in the world and never more so than in today's highly polarized America Facing threats from fence jumpers and manifesto writers and from fanatical terrorists and sophisticated spies protecting the president is harder than ever In an age of hyper-partisan politics emotions are high and crazies are a dime a dozen On top of that with international tensions reaching a boiling point it's harder than ever to determine friend from foe Yet the President of the United States is in very real danger if the Secret Service doesn't change course soon and evolve with the rapidly changing threat environment Highly motivated bad guys are already working on technologically advanced methodologies and are constantly striving to formulate the logistics of an attack on the White House Eventually terrorist planners will find a way to acquire the technology weapons explosives and know how to make an attempt on the life of the President The only question is What are we going to do about it *Protecting the President* provides not only a rare insider glimpse of what the Secret Service does but explores the challenges facing the agents today Chock full of relevant stories of protecting past presidents veteran agent Dan Bongino explains how the agency can best protect the president today This book covers how the Secret Service should plan for a tactical assault by a terrorist attack team prepare to respond to a severe medical emergency train to handle a chemical or biological weapon attack prepare for an attack using explosives plan for 9/11 style attacks from the air and fire threats and much more
