Student Protest:

Student Protest Gerard J. De Groot, 2014-09-25 This topical new study takes a new look at the causes course and consequences of student activism across the world since its heyday in the 1960s It starts with analyses of some of the most familiar and romanticised Sixties protests themselves in the US France Germany Mexico and Great Britain It then goes on to examine more recent and hazardous examples of student activism particularly in China Korea and Iran Throughout the tone is hard headed and analytical rather than celebratory exploring the similarities and differences across these protests and asking what they achieved The contributors to the volume are Ingo Cornils Gerard J DeGroot Sylvia Ellis Sandra Hollin Flowers Behrooz Ghamari Tabrizi Bertram M Gordon J Angus Johnston Alan R Kliver Donald J Mabry Gunter Minnerup A D Moses Frank Pieke Julie Reuben Barbara Tischler Nella Van Dyke Clare White James L Wood Eric Zolov **Violent student protests at Higher Education Institutions in South Africa** Nomzamo Dube, Olusegun Morakinyo, 2026-01-19 This book offers a multidisciplinary examination of violent student protests in South African universities tracing their roots to the nation's longstanding protest traditions shaped by apartheid resistance While situated within the field of higher education its chapters draw on perspectives from politics history communication and youth mobilisation Central to the volume is the complex balance between students right to protest and the risks posed by violence intimidation and gangsterism Collectively the contributions advocate for reimagining student activism through democratic and constructive forms of engagement that strengthen rather than destabilise the academic project Student Activism and Protest Edward E. Sampson, Harold Allen Korn, 1970 *The Scope of Organized Student Protest in 1967-1968* Richard E. Peterson, 1968 Relationship of College Student Protest and Participation in Policy-making to Institutional Characteristics J. Fredericks Volkwein, 1968 **Radicals in the Heartland** Michael V. Metz, 2019-04-16 In 1969 the campus tumult that defined the Sixties reached a flash point at the University of Illinois Out of town radicals preached armed revolution Students took to the streets and fought police and National Guardsmen Firebombs were planted in lecture halls while explosions rocked a federal building on one side of town and a recruiting office on the other Across the state the powers that be expressed shock that such events could take place at Illinois's esteemed conservative flagship university how could it happen here of all places Positioning the events in the context of their time Michael V Metz delves into the lives and actions of activists at the center of the drama A participant himself Metz draws on interviews archives and newspaper records to show a movement born in demands for free speech inspired by a movement for civil rights and driven to the edge by a seemingly never ending war If the sudden burst of irrational violence baffled parents administrators and legislators it seemed inevitable to students after years of official intransigence and disregard Metz portrays campus protesters not as angry militant extremists but as youthful citizens deeply engaged with grave moral issues embodying the idealism naiveté and courage of a minority of a generation *The Black Student Protest Movement at Rutgers* Richard Patrick McCormick, 1990 Richard P McCormick has chronicled the black

student protest movement at Rutgers University from the 1960s to today He examines the forces that produced the protest movement the tactics that were employed and the qualified gains that were achieved He tells us about demonstrations building occupations committee hearings and countless meetings but he also paints portraits of the many student leaders who mobilized protest This is the story of a lot of pain some blunders and some successes In the mid sixties the University established committees to recruit black students and to add more blacks to the faculty These efforts produced only modest results By 1968 there were still not enough black students on campus but there were enough to create a political presence for the first time They were committed to acting against the racism they perceived within the University To respond to their protests in March 1969 the Board of Governors passed a dramatically new and controversial policy to encourage disadvantaged students who lived in Camden Newark and New Brunswick to apply to Rutgers where they would take college preparatory classes as unmatriculated students and then enter Rutgers as matriculated students This program never very successful lasted only two years Unrest did not end with the sixties During the seventies black students sporadically voiced protests against what they perceived to be an unsupportive environment During the eighties black enrollment actually declined as did the black graduation rate In conclusion McCormick points to the effort that has been made but even more to the effort that still needs to be made and the social cost of ignoring the problem
