Weakness of Will in Renaissance and Reformation

Thought Risto Saarinen, 2011-06-30 The question of why people act against their better judgment has always been prominent in philosophy Risto Saarinen presents the first study of ideas about weakness of the will between 1350 and 1650 He shows how the understanding of human conduct and free will changed in this formative period between medieval times and modernity

Weakness of Will and Practical Irrationality Sarah Stroud, Christine Tappolet, 2003-09-04 Among the many practical failures that threaten us weakness of will or akrasia is often considered to be a paradigm of irrationality The eleven new essays in this collection written by an excellent international team of philosophers some well established some younger scholars give a rich overview of the current debate over weakness of will and practical irrationality more generally Issues covered include classical questions such as the distinction between weakness and compulsion the connection between evaluative judgement and motivation the role of emotions in akrasia rational agency and the existence of the will The also include new topics such as group akrasia strength of will the nature of correct choice the structure of decision theory the temporality of prudential reasons and emotional rationality Because these questions cut across philosophy of mind and ethics the collection will be essential reading for scholars postgraduates and upper level undergraduates in both these fields

A Philosophical Reader on Moral Weakness Kirk Fitzpatrick, 2009-01-01 This text functions as a collection of primary source materials for researches and students of moral weakness It is tailor made for upper division courses on Moral Weakness Praise and Blame Action Explanation and other such topics It can function as the text for Ethics Moral Issues Moral Decision and other such topics It can also function as a text for an Introduction to Philosophy when augmented with other texts In some contexts the text can stand alone but it functions especially well when augmented by secondary sources By strategically pairing secondary texts with the primary texts a professor can focus on different epochs or selections as personal taste directs From internet site Linus Publications

The Weakness of the Will Justin Gosling, 2002-11-01 First Published in 2004 Since before Plato philosophers have puzzled over why it is that people will sometimes deliberately take the worst course of action The book begins by examining the various theories put forward by Plato Aristotle the Stoics and a selection of medieval philosophers and discusses how and why later philosophers avoid the problem In the second section Justin Gosling argues that familiar ways of viewing the problem mislocate the apparent irrationality of weakness The author then moves on to the traditional cases of being overcome by passion to argue for a further sense in which weakness may be thought irrational and to open up an unusually wide field of examples for consideration

Freedom and the Human

Person Richard Velkley, 2007-12 In the Western tradition freedom and the human person have been at the center of

philosophical theological moral and political debates since the origins of this tradition Although contemporary discourse betrays the multiplicity of these roots the necessary historical perspective for evaluating them is almost always lacking even in scholarly studies The terms freedom and person carry such overwhelming force in the modern world that the critical distance required for grasping what is at stake in using them is extremely hard to gain The present collection seeks to contribute toward finding that distance by making the tradition of thought more a living reality and not an object of arid analyses Unlike most collections the present one transcends disciplinary boundaries as it acknowledges the interconnectedness of philosophical theological and political arguments on these themes The contributors are prominent authorities in particular historical periods or in figures in Western thought and they treat approaches to freedom and the human person in ancient Greek biblical medieval and modern sources although the major emphasis is on the thought of leading philosophers Plato Boethius Aquinas Ockham Machiavelli Locke Kant Hegel Nietzsche Husserl et al Their essays bring forward profound contrasts in how freedom and personhood have been grounded and characterized notably the contrasts between groundings in natural reason and in supernatural revelation between premodern teleological thinking and modern thinking on self sovereignty without teleology and within modern thought between positions favoring individual autonomy and others securing freedom and its exercise in communal or traditional life Several of the papers shed light on the relations of freedom and personhood to the human powers of speech thought and judgment The contributors to the volume are Seth Benardete Michael Gillespie Leon Kass Robert B Pippin Robert Rethy John M Rist Brian J Shanley O P Susan Meld Shell Robert Sokolowski Eleonore Stump Nathan Tarcov and Michael P Zuckert with Jesse Covington and James Thompson Richard Velkley former professor of philosophy at the Catholic University of America is Celia Scott Weatherhead Professor of Philosophy at Tulane University He is author of *Freedom and the End of Reason On the Moral Foundation of Kant's Critical Philosophy and Being after Rousseau Philosophy and Culture in Question* Scott Robert Sehon, 2016 *Free Will and Action Explanation* Scott Robert Sehon, 2016 Do we have free will and moral responsibility Is free will compatible with determinism Scott Sehon addresses these key questions by focusing on an underlying issue the nature of action explanation He proposes a non causal account of action and agency according to which reason explanation of human behavior is teleological rather than causal

Encyclopedia of Medieval Philosophy Henrik Lagerlund, 2010-12-07 This is the first reference ever devoted to medieval philosophy It covers all areas of the field from 500 1500 including philosophers philosophies key terms and concepts It also provides analyses of particular theories plus cultural and social contexts *Backsliding* Alfred R. Mele, 2012-04-20 In this book the author incorporates research in social and developmental psychology to understand the human behavior of weakness of will or akrasia *Weakness of Will from Plato to the Present (Studies in Philosophy and the History of Philosophy, Volume 49)* Tobias Hoffmann, 2008 In thirteen original essays eminent scholars of the history of philosophy and of contemporary philosophy examine weakness of will or incontinence the phenomenon of acting contrary to one's better

Nonsocratic skepticism. A critical view on the relation between weakness of will and self-control Kim Ann Woodley,2020-07-14 Seminar paper from the year 2019 in the subject Philosophy Theoretical Realisation Science Logic Language grade 2.0 Bielefeld University Abteilung Philosophie course Willensschwache Willensstärke Willenskraft language English abstract This paper will be about reconstructing the argumentation of Skepticism about Weakness of Will 1977 by Watson and about discussing if his proposal is plausible My main thesis is that he cannot give a clear answer to the question of when exactly a person acts weak willed either One point of criticism will be about him introducing the term self control as a solution We will see that this kind of solution creates new issues For instance how do we know if and when a person is or should be capable of self control A second point will be about Watson's argument that we can hold a person responsible for acting weak willed because he/she should have learned and applied the skills needed for resisting but didn't What is troubling here underlies the same problem than the previous question Are we really able to tell when this is the case And what are the consequences if we cannot say for sure when a person acts weak willed In Skepticism about Weakness of Will 1977 Watson challenges the common account whose proposal consists of two components First it believes a weak willed action to be intentional and against the person's better judgment Second it claims such actions to be free in the sense that the person could have resisted acting weak willed Watson himself comes to the opposite conclusion regarding the second component a weak agent could not have resisted acting against his/her better judgement in the moment of action based on his main thesis Weakness of will involves the failure to develop certain normal capacities of self control Self-deception and the Common Life Lloyd H. Steffen,1986 Self Deception and the Common Life investigates the topic of self deception from three points of view philosophical psychology ethics and theology Empirical evidence and an ordinary language analysis support the case that the linguistic expression self deception is literally meaningful and that the language of the common life can be trusted After critically analyzing the cognition translation and action accounts along with the contributions of Freud and Sartre Steffen proposes a new synthetic emotional perception account one that avoids paradox Giving attention to relevant moral issues he argues that self deception is not immoral but represents a peculiar form of akrasia Finally because theologians employ self deception to describe the cognitive component of sin Steffen considers the logic of theological self deception His study seeks an intimate acquaintance with self deception and exemplifies a method of analysis relevant to constructive theological inquiry The Law Times Reports ,1913 A Treatise on the Law of Instructions to Juries in Civil and Criminal Cases Henry Edward Randall,1922 **The Lancet** ,1891
