Weapons For Victory:

Weapons for Victory Robert James Maddox,2004-08-23 The highly acclaimed Weapons for Victory originally appeared in 1995 the fiftieth anniversary of the end of World War II Now in this paperback edition Robert James Maddox provides a new introduction about the ongoing controversy related to the decision to bomb Hiroshima **101 Weapons of Spiritual Warfare**

Dr. D. K. Olukoya,2013-12-10 101 Weapons of Spiritual Warfare Never in the history of the world has there been an era of war both physical and spiritual like this era This is a tougher era of warfare More people are under bondage now more than in any other period of human history There are cases of deep bondage uncommon attacks against the family and horrendous occurrences in the lives of individuals The devil has wreaked a lot of havoc upon humanity The bible has described in vivid terms that God is aware of the high spate of demonic hostilities Hence the Holy Spirit has released the prophetic revelations in this book in order to place us in good stead for a unique role in this end times This manual is the first of its kind This is the apex of deliverance We are the threshold of a revival of spiritual warfare The sweeping and the far reaching effect shall be best described as awesome **Islamic Jihadism and the Laws of War** Omar Mekky,2023-07-21

The rapid rise of global Islamic Jihadism in the past few decades and the limited success of the anti terror campaign in halting its expansion have raised hard hitting questions about how different political actors might preserve and restore the world s peace and security Since the end of the Second World War international law has often been the chief instrument employed to address global conundrums of this kind Nevertheless international law alone cannot solve this problem Jihadist groups often cite Islamic law argumentations to justify their combat related actions against states while rejecting traditional international law rules On the other hand some states themselves ignore traditional international law rules to apply their so called counterterrorism measures The internationally recognized laws of war created to protect those who do not participate in hostilities are constantly challenged by jihadist groups and responding states in justification of their combat actions In **Islamic Jihadism and the Laws of War** Dr Omar Mekky explores both sides legal frameworks synthesising findings from both English and Arabic sources Drawing from the author s field expertise as a legal advisor in the Middle East and North Africa the book narrates how Islamic Jihadism began and evolved outlines the laws jihadists apply during combat addresses how states often react in their fights against jihadist groups and aims for a pragmatic humanitarian legal formula An essential resource for legal professionals policymakers academics and students Mekky s book initiates a constructive dialogue between international law and Islamic law *Strategic Weapons of our Warfare* , *Moral Principles and Nuclear Weapons* Douglas P. Lackey,1984 Philosophy and science Jacket Bibliography p 242 257 Includes index *Hygeia* ,1943 **Imagining Nuclear War in the British Army, 1945-1989** Simon Moody,2020 The primary mission assigned to the British Army from the 1950s until the end of the Cold War was deterring Soviet aggression in Europe by demonstrating the will and capability to fight with nuclear weapons to defend NATO territory This is the first comprehensive account of how the British Army

imagined nuclear war and how it planned to fight it Hitler's Miracle Weapons: the Secret History of the Rockets and Flying Crafts of the Third Reich Friedrich Georg, 2003 Following on from the success of volume 1 Friedrich Georg's second book in the series covers unconventional short and medium range weapons In particular this volume includes a wealth of information about the V rocket programme not just the more familiar V 1 and V 2 but special variants of these two rockets as well as later experimental craft and weaponry Following a fascinating examination of pre war efforts to build flying bombs the author examines the V 1 and V 2 projects in great detail Particular attention is paid to special variants that have previously received little coverage These include the V 2 A 4 America Rocket and V 2s designed to carry nuclear and radiological warheads The capability of the Germans to deploy such weapons is also discussed A large number of weird and wonderful projects that never left the drawing board are examined including the FR 35 V 6 V 101 Waterfall and Naval EMW A 7 rockets The fascinating final section examines German plans to utilise such rocketry against London and Paris in 1945 as well as recounting the activities of V weapons on other fronts including Italy Yugoslavia and the Eastern Front The text is supported by b w photographs and 16 superb pages of colour artwork including profiles computer generated images of designs that never flew and pictures of the author's own models The Wonderful Sacraments, what They are and what They Do Francis X. Doyle, 1924 Divine Metaphors in Selected Hebrew Psalms of Lamentation Alec Basson, 2006 In this book Alec Basson examines the divine metaphors in a selection of biblical Hebrew Psalms of Lamentation from a cognitive anthropological perspective The study signals a move beyond the more traditional approaches to the Psalms and argues that the textual information in these poems is more than literary information as such it is also a cognitive representation of the psalmist's world The divine portrayals arise from the supplicant's cognitive organisation and utilisation of cultural information which include the everyday experiences In situations of affliction the poet employs various cognitive strategies viz cultural models image schemas and conceptual metaphors as a means of portraying the deity The exploration illustrates the link between the psalmist's cultural experience cognitive construal of reality and the metaphorical representations The utilisation of the different cognitive tools gives rise to new and recurring images of the deity and accounts for the multiple depictions of Yahweh The investigation arrives at the conclusion that to appreciate fully the divine metaphors used in the Psalms of Lamentation one has to examine the cognitive world of the poet **Quarterly Review of Military Literature**, 1950 *Review of Current Military Literature*, 1950 *The Christian's Pathway of Power*, 1876 A Commentary on the Holy Scriptures: Critical, Doctrinal, and Homiletical Johann Peter Lange, 1877 **Hitler's Terror Weapons** Roy Irons, 2002 This title addresses Hitler's use of experimental weaponry and questions whether his campaign would have been a greater success if he had put more of his resources into manufacturing mass produced weapons Should Hitler have put so much emphasis on the development of exotic long range weapons such as the V series rockets Or would he have served his war machine better if those resources had been routed into conventional manufacturing What effect did the V weapons have on
