Sources Of Hermeneutics:

Sources of Hermeneutics Jean Grondin, 1995-01-01 This book provides an introduction to the historical sources of philosophical hermeneutics as it has come to fruition in the work of Heidegger and Gadamer *Sources of Hermeneutics*

Jean Grondin, 1995-07-01 This book provides an introduction to the historical sources of philosophical hermeneutics as it has come to fruition in the work of Heidegger and Gadamer *Hermeneutic Rationality*

Maria Luísa Portocarrero, Luis António Umbelino, Andrzej Wierciński, 2012 The problem of the limits of reason is by no means a privileged subject of an academic discourse By reducing reality to what can be conceived of within the paradigms of the scientific laboratory manipulative despotism which positivistic notion of objectivism has established creates in a human being a unilateral conscience of the world and of oneself a conscience that dominates today our understanding of existence in its manifold senses of Being and the world we live in This way of thinking based on a powerful and skillful technique aimed at controlling human life in all its dimensions intends to impose this limiting positivistic horizon on human beings in the name of Liberte Egalite and Fraternite Hermeneutic rationality resists the claims of modern science and promotes the culture of hospitality toward the world as it shows itself in its complexity

Maria Luisa Portocarrero Universidade de Coimbra Portugal Professor of Philosophy specializing in the phenomenological hermeneutics of Hans Georg Gadamer and Paul Ricoeur

Luis Antonio Umbelino Universidade de Coimbra Portugal Professor of Philosophy and Artistic Studies

Andrzej Wiercinski Albert Ludwigs Universitat Freiburg Germany Professor of Philosophy of Religion specializing in Practical Philosophy

Philosophical Hermeneutics *The Inner Word in Gadamer's Hermeneutics*

John Arthos, 2009 Late in his life Hans Georg Gadamer was asked to explain what the universal aspect of hermeneutics consisted in and he replied enigmatically in the *verbum interius* Gadamer devoted a pivotal section of his magnum opus *Truth and Method* to this Augustinian concept and subsequently pointed to it as a kind of passkey to his thought It remains however both in its origins and its interpretations a mysterious concept From out of its layered history it remains a provocation to thought expressing something about the relation of language and understanding that has yet to be fully worked out The scholastic idea of a word that is fully formed in the mind but not articulated served Augustine as an analogy for the procession of the Trinity and served Thomas Aquinas as an analogy for the procession between divine ideas and human thought Gadamer turned the analogy on its head by using the *verbum interius* to explain the obscure relation between language and human understanding His learned interpretation of the idea of the inner word through Neoplatonism Lutheranism idealism and historicism may seem nearly as complex as the medieval source texts he consulted and construed in his exegesis but the profundity of his insights are unquestioned In unpacking Gadamer's interpretive feat John Arthos provides an overview of the philosophy of the logos out of which the *verbum interius* emerged He summarizes the development of the *verbum* in ancient and medieval doctrine traces its path through German thought and explains its relevance to modern hermeneutic theory His work unfolds in two parts as an

expansive intellectual history and as a close analysis and commentary on source texts on the inner word from Augustine to Gadamer As such this book serves as an indispensable guide and reference for hermeneutics and the intellectual traditions out of which it arose as well as an original theoretical statement in its own right Consummately researched lucidly written and persuasively argued throughout The Inner Word succeeds brilliantly in bringing to light this neglected but pivotal matter in Gadamer s work Arthos is learned in the best humanist way for he succeeds in creating something new of his own that will speak eloquently to all of us Walter Jost University of Virginia Gadamer suggests that the Christian idea of incarnation is a key to his hermeneutics but does not explain his position in a detailed or systematic manner Arthos brings his considerable knowledge of hermeneutics and rhetoric to bear on Gadamer s insight recounting the rich intellectual history to which Gadamer gestures and providing an extended and detailed exegesis of this pivotal point in the third part of Truth and Method Gadamer s account of linguisticity Arthos explains can best be understood through his use of a complex metaphor the inner word Arthos matches his erudition with clear and clean prose and his account exemplifies rather than just describes Gadamer s hermeneutical philosophy Any scholar interested in Gadamer s philosophy should have this book on his or her shelf Francis J Mootz III William S Boyd Professor of Law William S Boyd School of Law Arthos s strength lies for me in his careful reading of the sources He effectively commands the literature on the subject This work shows in a sophisticated way the legacy of trinitarian theology for philosophical hermeneutics The very complex task of illuminating the phenomenon of the verbum interius and indicating its centrality for philosophical hermeneutics is accomplished by John Arthos with great sensitivity to the subject matter Andrzej Wiercinski The International Institute for Hermeneutics [The Very Idea of Radical Hermeneutics](#) Roy Martinez,1997 These essays focus on and explore the idea of radicalizing hermeneutics first proposed in John D Caputo s study Radical Hermeneutics They address the confrontation of hermeneutics and postmodernism and include contributors from the fields of philosophy literature and science [Hermeneutics of the New Testament](#) Albert Immer,1877 [Rewriting Ancient Jewish History](#) Amram Tropper,2016-04-20 Half a century ago the primary contours of the history of the Jews in Roman times were not subject to much debate This standard account collapsed however when a handful of insights undermined the traditional historical method the method long enlisted by historians for eliciting facts from sources In response to these insights a new historical method gradually emerged Rewriting Ancient Jewish History critiques the traditional historical method and makes a case for the new one illustrating how to write anew ancient Jewish history At the heart of the traditional historical method lie three fundamental presumptions The traditional historical method regularly presumes that multiple versions of a text or tradition are equally authentic it presumes that many ancient Jewish sources are the products of largely immanent forces of cloistered Jewish communities and barring any local grounds for suspicion it presumes that most ancient Jewish texts faithfully reflect their sources and reliably recount events Rewriting Ancient Jewish History unfurls the failings of this approach it promotes the new historical method which circumvents the

flawed traditional presumptions while plotting anew the limits of rational argumentation in historical inquiry This crucial reappraisal is a must read for students of Jewish and Roman history alike and a fascinating case study in how historians should approach their ancient sources
