Southern Horizons (Classic Reprint) Williams Haynes,2015-07-07 Excerpt from Southern Horizons This Book needed to be written There is no doubt whatever about that And yet I wish that I might sit down with you and chat about how it came to be written and by a Damsyankee from Connecticut A revolution is brewing in Southern farms and factories and it is high time that all of us look into its causes and consider its effects A new economic era is beginning in which new crops will be grown and new goods manufactured More important than the new techniques or the new working conditions or the new markets is the new spirit that today inspires the South I have attempted to reappraise Southern resources in the terms of these new values But you should be warned that this is no exhaustive economic treatise You will look in vain for charts of prices and wages or statistical tables of production and consumption This is not that kind of book at all This is a story of men practical men of vision It is a first hand account of some of the leaders in this Southern revolution revealing stories of the men who are doing unusual things in fresh ways About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
