The Geography of Strabo, Vol 3:Books 6 & 7 [Loeb Classical Library 182]. Strabo,1924

Prophets, Prophecy, and Oracles in the Roman Empire Leslie Kelly,2017-12-06 This book surveys the uses and function of prophecy prophets and oracles among Jews Christians and pagans in the first three centuries of the Roman Empire and explores how prophecy and prophetic texts functioned as a common language that enabled religious discourse to develop between these groups It shows that each of these cultures believed that it was in prophetic texts and prophetic utterances that they could find the surest proof of their religious beliefs and a strong confirmation of their group identity

Dacia Ion Grumeza,2009-05-16 This book tells the little known story of Dacia the powerful and rich land that became Transylvania and Romania This kingdom was once the cornerstone of Eastern Europe By A D 1 Dacia was the third largest military power in Europe after the Romans and Germans Most historians mistook the Dacians for Sarmatians Scythians even Slavs This book revives the Dacian history and contributes to our understanding of the region as it is today The wars economy and traditions of this Transylvanian land permeate the geopolitics of today s Balkan countries To understand what is happening today in Modern Europe we need to return to the study of this area This book provides the context for the invasions that molded the Balkan and Eastern European nations that continue to redraw their borders and impose ethnic domination on each other

The Three Ages of Atlantis Diego Marin,Ivan Minella,Erik Schievenin,2013-11-28 Scientific and anthropological evidence for multiple Atlantean empires and the global catastrophes that destroyed them Reveals that there was not one but three Atlantises the first in Antarctica the second in South America and the third in the Mediterranean Examines geological evidence of super floods 15 000 11 600 and 8 700 years ago Shows how these flood dates directly parallel the freezing of Antarctica the migrations of Cro Magnon men and the destruction of Atlantis according to Plato 15 000 years ago the Earth s axis tilted shifting the geographic poles Volcanoes erupted the icecaps melted and the seas rose dramatically Antarctica was enveloped in ice destroying the high civilization of prehistory Atlantis But before the survivors could reestablish what they had lost catastrophe struck again twice Uniting scientific findings with theories on the location of Atlantis the authors reveal that there was not one but three Atlantises the first in Antarctica the second in South America and the third in the Mediterranean Examining paleoclimatology data they show that Antarctica was temperate 15 000 years ago and home to the original Atlantis They explore geological evidence of three worldwide super floods 15 000 11 600 and 8 700 years ago and show how these dates directly parallel the freezing of Antarctica the arrival of Cro Magnon man in Europe and the destruction of Atlantis according to Plato Uncovering the influence of the Atlanteans in Proto Indo European languages and in massive ancient monuments aligned with the stars they show how the civilization founders in all early myths the Pelasgians Danaans Viracocha Aryans and others were part of the Atlantean diaspora and how this migration split into two major movements one to Latin America and the other to Europe and Asia Following the Atlanteans from a warm Antarctica up to Peru Mexico and

the Mediterranean they reveal that Cro Magnon men are the people of Atlantis and that we are just now returning to their advanced levels of science technology and spirituality Change and Transition on Crete: Interpreting the Evidence from the Hellenistic through to the Early Byzantine Period Jane Francis, Michael J Curtis, 2023-02-09 The theme of this volume presented in honour of G W M Harrison whose academic contributions have enriched our perspective of Roman Crete is change and transition a topic that challenges some of the earlier approaches to Hellenistic and Roman Crete and which presents a different perspective on historical events and archaeological evidence John, Beloved by JESUS Scott Campbell Brown, 2024-11-08 You are so loved by God that he gave you his only Son that if you believe in him you will not perish but you shall have eternal life Although this is a work of fiction about the Apostle John this book focuses on the truth of the wonderful promises of God for you You is the first word of the novel and it comprises the last non biblical word And you will read that many of the promises have already been kept for as John takes his life journey he learns again and again that from Abraham to Jesus to God s Revelation to him that the Lord himself will provide the Lamb Along the way you will meet the strong women in John s life His birth mother Salome who becomes a faithful follower of Jesus but endures much heartache throughout her life Mary who by the edict of Jesus becomes John s born again mother and teaches him many lessons even as a grown man You will meet the Elect Lady referenced in the Second Letter of John and Lydia the dealer in purple cloth from the book of Acts and the first person from Europe to be baptized There will be some ups and downs You will witness the martyrdoms and the sufferings of the faithful Christians Because even the apostles are sinners you will observe some of that And you may even have a few laughs At times you may become frustrated with John or some of the others And that is a good thing Because although this book tells their stories the great promises of God through the sacrifice and resurrection of Jesus Christ are its most important message for you **New Approaches to Ancient Material Culture in the Greek & Roman World** Catherine Cooper, 2020-11-16 New Approaches to Ancient Material Culture in the Greek Roman World is about Classical Archaeology at its broadest and is important reading to all Classicists As part of a recent movement to highlight the rich diversity of the subject it overcomes traditional disciplinary boundaries to show the variety of current approaches to the study of Classical Antiquity from the Late Bronze Age to the Late Antique period The multi disciplinary papers deal with archaeology and art history museum objects and fieldwork data ancient texts and material culture archaeological theory and historiography and technical and literary analysis The international contributors discuss a selection of methodologies currently used to study ancient material and illustrate their relevance through case studies which span the Greek and Roman world The Classical World ,1917 Current Literature ,1930 Proceedings of the 4th Symposium of the Hellenic Society for Archaeometry Hellēnikē Archaïometrikē Hetaireia.
