[Export Control Law and Regulations Handbook](#) Yann Aubin, Arnaud Idiart, 2016-05-15 The importance of export control laws and regulations in international trade

continues to grow not only because of the increase in world trade and technology dispersion but also due to concerns surrounding national and regional stability and the risk of terrorism Accordingly familiarity with export control laws and regulations around the world has become extremely important for those involved in the international trade of dual use or military goods technology and services In this preeminent handbook now in its third edition two experienced professionals have gathered contributions from expert practitioners and academics The third edition adds three new country chapters Brazil Israel and Sweden and a new separate chapter on sanctions and embargoes In addition to chapters on the international regime in general the book provides a practical overview of the export import control regimes covering defence and dual use goods and services in fourteen key jurisdictions Country reports each follow the same structure for easy comparison Issues and topics covered include the following and much more import export legal and regulatory requirements for controlled goods and services sanctions for breach of such requirements civil administrative or criminal licence application processes arms dual use and other products embargo including chemical and biological materials and technology and enforcement measures The Handbook also makes available through an online application all important standard export control related forms templates and other related documents all of which readers can use to draft their own documents The Handbook is invaluable to any professional such as lawyers compliance key players procurement logistics finance and customs practitioners working in relation to an organisation with a need to know the specific requirements to be followed for the efficient and legally compliant import or export of controlled military or dual use goods technologies or services

**Law and Politics on Export Restrictions** Chien-Huei Wu, 2021-07-29 Delving into export restrictive measures this book links the key areas of WTO law public international law investment and competition law to expose how and why WTO rules on export dimension are insufficient due to export bias how public international law helps to justify their adoption or maintenance and how investment and competition laws contribute to their regulation Built on works on accession protocols and national security exceptions this book goes beyond international trade law and looks into international political economy competition and investment law It contributes to debates in conceptualising public and private forms of export restrictions appreciating the complementary nature of trade and competition law in disciplining them capturing the dynamic between trade and investment policies for their effectuation and circumvention and bridging trade law and public international law to better understand their impositions for political and diplomatic purposes with the invocation of the national security justification

International White Collar Crime Bruce Zagaris, 2015-08-10 The only book on international white collar crime remains an invaluable tool for business law and law enforcement

**To Supply Or to Deny** Michael David Beck, Richard T. Cupitt, Scott A. Jones, Seema Galhaut, 2003-01-01 Weapons of mass destruction WMD are not necessarily acquired as entire systems They are often assembled from parts and materials many of which are dual use i e of both commercial and military utility Often suppliers of these components do not ask who their customers are or inquire about the intended application This has for a

long time been the Achilles heel of well intentioned nonproliferation conventions The answer lies in more stringent export controls of weapons related technologies In this eye opening collection of essays sponsored by the Center for International Trade and Security at the University of Georgia USA a group of outstanding experts in the nonproliferation field report on the efforts of five leading supplier countries the United States France Russia China and India to implement export controls on weapons and sensitive technologies used for producing WMD The book is both reassuring and alarming in its very precise survey and analysis of export control regimes At most national levels regulation is rapidly making firms more accountable and more industries are routinely implementing internal compliance programs However these advances are in a neck to neck race with intangible methods of transferring information corporations with no national allegiance and competition among international suppliers Based on in depth research each of the contributors spent considerable time conducting interviews with government officials and other policy experts observing policy making and implementation and gathering empirical data this detailed and thought provoking book will be of great value to all concerned with security objectives for the twenty first century
