Accessing the Classics La Vergne Rosow, 2005-12-30 Help readers improve reading skills while stimulating their appreciation and increasing their understanding of great literature Using a scaffolding approach this guide leads readers from simple and engaging reads to more challenging texts and simultaneously cultivates their interest and skills An invaluable resource for middle and high school ABE and ESL educators as well as for readers advisors All readers even those still learning to speak English can enjoy the delights and benefits of great literature with the help of this motivational and practical book guide Rosow takes you on a journey through the history of Western literature beginning with ancient myths and moving to medieval tales and classics of the Renaissance Romantic Movement and Modernism Along the way she shows you how to give readers easy access to some of the best literature of all time Scores of collections focus on such ancient and enduring stories as Gilgamesh Beowulf the tales of Chaucer historical masterpieces of William Shakespeare Jane Austen Edgar Allan Poe Charles Dickens and stellar names of more recent times such as Virginia Woolf John Steinbeck Ernest Hemingway and J R R Tolkien Each carefully selected collection lists an assortment of titles ranging in reading level and arranged progressively from simple renditions such as picture book retellings through more advanced selections and readings where audio versions and simpler formatting support the reader and on to the most challenging reads Author profiles and narrative as well as detailed descriptions of each title provide further insights into the story lines and features of the books while building a scaffold of reading experience and knowledge to help readers better understand the texts For example the Mark Twain collection begins with a brief biographical sketch of the author followed by descriptions of two illustrated books about the author and two readers theatre skits based on his work A collection of Twain's short stories is

recommended next and then several illustrated versions of his novels and an illustrated edition of Twain's memoir *Life on the Mississippi* which is supported by an audiotape version. Each recommended title is rated as start here, next read, support here, or challenging read, and related reads and audio and video versions are listed when appropriate. The author also notes author and student favorites, titles with exceptional illustrations, and other features of interest. Focus is on authors and titles of the Western canon that are generally available in library collections. Because some of the titles cited are older editions, this is a valuable collection development tool in libraries as well as an essential resource for readers, advisors, Adult Basic Education, and English as Second Language educators and young adult educators and librarians. Young adult and adult or Grades 9 and up.

The Writer's Handbook 2007 Barry Turner, 2006. Completely revised and updated with newly commissioned articles for the 20th anniversary edition. *The Writer's Handbook* is an indispensable companion for everyone in the writing profession. Containing over 6,000 entries covering every area of writing with provocative articles and useful advice from leading representatives of the trade, this practical, straightforward guide provides full details on the core markets. In addition to the key areas of UK and US book publishers, agents, magazines, screenwriting, theater, and poetry, writer's courses and circles, festivals, and grants, and prizes, the guide also offers invaluable expert advice on contracts, copyright, and taxation. **Words on Cassette**, 2000. *The Nation*, 2002. *Words on Cassette, 1999* Bowker Editorial Staff, Staff Bowker R. R., Bowker, 1999-02. **Report** Singapore (City). National Library, 1984. **World Databases in Humanities** C. J. Armstrong, R. R. Fenton, 1996. An evaluative directory to the world's databases for the Humanities, accessing all electronic products currently available on the Internet, CD-ROM, online, realtime disk, or tape. The subjects included under the humanities umbrella include the fine arts, music, performing arts, language, literature. **On Cassette**, 1990. **Introduction to Cataloging and Classification** Daniel N. Joudrey, Arlene G. Taylor, David P. Miller, 2015-09-29. A new edition of this best-selling textbook reintroduces the topic of library cataloging from a fresh, modern perspective. Not many books merit an eleventh edition, but this popular text does. Newly updated, *Introduction to Cataloging and Classification* provides an introduction to descriptive cataloging based on contemporary standards, explaining the basic tenets to readers without previous experience, as well as to those who merely want a better understanding of the process as it exists today. The text opens with the foundations of cataloging, then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records (FRBR), Functional Requirements for Authority Data (FRAD), the International Cataloging Principles (ICP), and RDA. Unlike other texts, the book doesn't presume a close familiarity with the MARC bibliographic or authorities formats, ALA's Anglo-American Cataloging Rules, 2nd Edition, revised AACR2R, or the International Standard Bibliographic Description (ISBD). Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification. In addition, the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data. Discussions of formatting, presentation, and administrative

issues complete the book questions useful for review and study appear at the end of each chapter **Foreign Affairs** ,
