Spring Into Love:

Early spring in Massachusetts: from Thoreau's journal Henry David Thoreau, 1893 **Springtime in Carolina** Michelle Major, 2022-03-01 Love gets one last chance to bloom in Magnolia Josie Trumbull has rebuilt her life after her ballet dreams were crushed by a career ending injury Now she teaches dance in Magnolia and has mostly made peace with her life and future Until her best friend and proprietor of the bookstore next door Stuart Madison takes her completely by surprise Stuart Madison has had a crush on Josie for years He knows now it won't go anywhere and it's probably time for him to move on even if a few Magnolia residents think he still has a shot Will Josie realize that she can reach for what she wants before Stuart decides to stop waiting  , 2005 Students of Chinese poetry will enjoy this translation of famous Song Dynasty poems written in Chinese English and Pinyin Facing pages include full color artwork from the Song Dynasty accompanied with historical explanations *The Great Feast of Language in Love's Labour's Lost* William C. Carroll, 2015-03-08 This book contends that in *Love's Labour's Lost* Shakespeare sought to discover the ways in which the imagination uses and abuses language The author's critical reading shows that the characters are endowed with a wide variety of rhetorical disguises Each assumes that his verbal and social point of view is correct and the limitations and virtues of each viewpoint are explored as the drama unfolds In an elegant examination of theme and style Professor Carroll heightens the reader's awareness of Shakespeare's marvellously inventive use of language The author analyzes the different kinds of style the characters' attitudes toward language the play's theatrical modes the frequent metamorphoses and the debates The term debate justified by Shakespeare's use of the medieval *conflictus* relates to both theme and structure The author finds that the conflicting theories about the proper relation of language and imagination are resolved stylistically and thematically only in the final Debate between Spring and Winter where the playwright reasserts the nature and value of good art Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Early Spring in Massachusetts: From the Journal of Henry David Thoreau** Henry David Thoreau, 2020-09-28 Henry David Thoreau was born in Concord Massachusetts July 12 1817 and died there May 6 1862 Most of his life was spent in that town and most of the localities referred to in this volume are to be found there His Journal from which the following selections were made was bequeathed to me by his sister Sophia who died October 7 1876 at Bangor Maine Before it came into my possession I had been in the habit of borrowing volumes of it from time to time and thus continuing an intercourse with its author which I had enjoyed through occasional visits and correspondence for many years before his death and which I regard as perhaps the highest privilege of my life In

reading the Journal for my own satisfaction I had sometimes been wont to attend each day to what had been written on the same day of the month in some other year desiring thus to be led to notice in my walks the phenomena which Thoreau noticed so to be brought nearer to the writer by observing the same sights sounds etc and if possible have my love of nature quickened by him This habit suggested the arrangement of dates in the following pages viz the bringing together of passages under the same day of the month in different years In this way I hoped to make an interesting picture of the progress of the seasons of Thoreau's year It was evidently painted with a most genuine love and often apparently in the open air in the very presence of the phenomena described so that the written page brings the mind of the reader as writing seldom does into closest contact with nature making him see its sights hear its sounds and feel its very breath upon his cheek Thoreau seems deliberately to have chosen nature rather than man for his companion though he knew well the higher value of man as appears from such passages as the following The blue sky is a distant reflection of the azure serenity that looks out from under a human brow To attain to a true relation to one human creature is enough to make a year memorable And somewhere he says in substance What is the singing of birds or any natural sound compared with the voice of one we love Friendship was one of his favorite themes and no one has written with a finer appreciation of it Still in ordinary society he found it so difficult to reach essential humanity through the civilized and conventional that he turned to nature who was ever ready to meet his highest mood From the haunts of business and the common intercourse of men he went into the woods and fields as from a solitary desert into society He might have said with another he did virtually say If we go solitary to streams and mountains it is to meet man there where he is more than ever man But while I have sought in these selections to represent the progressive life of nature I have also been careful to give Thoreau's thoughts because though his personality is in a striking degree single he being ever the same man in his conversation letters books and the details of his life though his observation is imbedded in his philosophy how to observe is how to behave etc yet if any distinction may be made his thoughts or philosophy seem to me incomparably the more interesting and important He declined from the first to live for the common prizes of society for wealth or even what is called a competence for professional social political or even literary success and this not from a want of ambition or a purpose but from an ambition far higher than the ordinary which fully possessed him an ambition to obey his purest instincts to follow implicitly the finest intimations of his genius to secure thus the fullest and freest life of which he was capable He chose to lay emphasis on his relations to nature and the universe rather than on those he bore to the ant hill of society not to be merely another wheel in the social machine He felt that the present is only one among the possible forms of civilization and so preferred not to commit himself to it Herein lies the secret of that love of the wild which was so prominent a trait in his character It is evident that the main object of society now is to provide for our material wants and still more and more luxuriously for them while the higher wants of our nature are made secondary put off for some Sunday service and future leisure A great lesson of Thoreau's life is that all this must be reversed that

whatever relates to the supply of inferior wants must be simplified in order that the higher life may be enriched though he desired no servile imitation of his own methods for perhaps the highest lesson of all to be learnt from him is that the only way of salvation lies in the strictest fidelity to one's own genius
