Bridging the Gap, 1989 *Fight for the Bay* Howard R. Ernst, 2009-11-16 In this important new book on the declining health of one of America's leading environmental treasures Howard Ernst reveals a Chesapeake bay that has become functionally dead He argues that the Chesapeake Bay succumbed to a light green environmental movement that has too often

adopted a philosophy of compromise over confrontation and that has fueling a political dead zone where political leaders posture but fail to make the hard decisions needed to achieve real improvement in the Bay s health While blunt in his evaluation of past and present failures to restore the Bay Ernst believes that there is still time to turn the restoration effort around and sets out new dark green strategies to do so In the concluding chapter five long time bay activists provide first person accounts of their battles and hopes for the future Hailed by Robert F Kennedy Jr as a must read for anyone concerned about environmental protection this challenging book provides a wake up call for everyone concerned about the future of the Chesapeake Bay and other ecological treasures through out America
