## **Tolerating The Intolerable:**

**The Politics of Toleration in Modern Life** Susan Mendus, 2000 In *The Politics of Toleration in Modern Life* Susan Mendus gathers a group of distinguished public figures philosophers historians lawyers and religious leaders to reflect on a core issue within contemporary political debate At the close of a century that will be remembered for its two world wars and its eruptions of genocide the contributors examine the importance of an insistence on tolerance and the dangers of its lack both historically and in the present day How can toleration be fostered in a contentious and tightly populated world What situations and fears have historically fed attitudes of intolerance When and how should states intervene The authors of these essays seek answers to such questions and examine topics such as why certain national groups are especially vulnerable to intolerance and narcissistic fantasies and how the colonial view of intolerant exploitation as an acceptable norm of behavior has been replaced by a drive toward international solidarity The essays address religious tolerance the role of toleration in legal contexts the philosophical justification of tolerance and the concept of solidarity Ethnic identity nationalism the goods of conflict and the treatment of refugees seeking asylum are discussed as well While one contributor argues that a moment of genuine tolerance is achieved only when there is a cost involved in the act of tolerating another person's way of living another stresses that rational communal dialogue can only take place if the state is excluded from the discussion if conflict is recognized as valuable and if local communities come to consensus about what behavior and discourse is intolerable Offering an accessible and engaging commentary on the concept of tolerance *The Politics of Toleration in Modern Life* will interest a wide range of readers of philosophy political science religion sociology and history Contributors George Carey Christopher Hill Michael Ignatieff Helena Kennedy Alasdair MacIntyre Susan Mendus Julia Neuberger Bernard Williams *In Defense of Liberal-Pluralism* Upendra Chidella, Vikram Singh Sirola, 2009-10-02 This book takes a critical view of Kantian and Neo-Kantian moral philosophers preference of universalism the unity of morality moral impartiality consensus and common morality The central claim of the book is if the human condition is treated as complex and infested with irreducible choices and alternatives then moral rightness and wrongness ought to operate beyond these binaries giving epistemic status to Pluralism's multiple rationalities Redefining liberal pluralism the book also argues that moral reasoning is necessarily bound by paradoxes and contradictions seen in our choices of life projects in the conflict between individual morality and common morality and in justifying what is morally reasonable in the interpersonal framework Equivocation in moral argumentation cannot be valued without understanding the nature of the interpersonal that ought to sufficiently argue for moral disagreement irreducible pluralism and limits of morality Liberal pluralism thus signifies the quasi relational partially admitting Gilbert Harman nature of moral reasoning in the multi agent framework It also takes account of reciprocity fairness reasonableness tolerance open ended morality and agreeing to disagree However this idea of liberal pluralism no way undermines rationality and reason nor turns to anti theory rather it only treats morality as guided by reason without
