

German Verbs

- Tenses are either *simple* or *compound*
- Once you know how to form the past participle, compound tenses are similar for all verbs
- To form simple tenses you need to know whether a verb is *weak*, *strong* or *mixed*

Simple Tenses

In German these are:

Present indicative → ①

Imperfect indicative → ②

Present subjunctive → ③

Imperfect subjunctive → ④

Subjunctive forms are widely used in German, especially for indirect or reported speech.

The simple tenses are formed by adding endings to a verb stem. The endings show the number, person and tense of the subject of the verb. → ⑤

Types of Verb

The types of verb you need to know to form simple tenses are:

- **Strong verbs** - those whose vowel usually changes in forming the imperfect indicative → ⑥
- **Weak verbs** - which are usually completely regular and have no vowel changes. Their endings differ from those of strong verbs → ⑦
- **Mixed verbs** - which have a vowel change like strong verbs, but the endings of weak verbs → ⑧

Examples

①	ich hole	I fetch I am fetching I do fetch
②	ich holte	I fetched I was fetching I used to fetch
③	(dass) ich hole	(that) I fetch/I fetched
④	(dass) ich holte	(that) I fetched

⑤	ich hole	I fetch
	wir holen	we fetch
	du holtest	you fetched
⑥	singen	to sing
	er singt	he sings
	er sang	he sang
⑦	holen	to fetch
	er holt	he fetches
	er holte	he fetched

⑧	nennen	to name
	er nennt	he names
	er nannte	he named

German Verbs Cards - 1992 Visual Education, 1997-04-01 Process, Image, and Meaning Wolfgang Wildgen, 1994-01-01 The general topic of this book is the development of a realistic model of meaning it has to account for the ecological basis of meaning in perception action and interaction and is realistic in the sense of scientific realism i e it is based on the most successful paradigm of modern science dynamical systems theory In Part One a model of sentences is put forward The first chapter outlines the philosophical background of a theory of meaning Chapter 2 gives a very short summary of recent proposals for a semantic model which considers image like schemata In Chapter 3 a realistic model of valence and basic predication is developed in detail Chapter 4 treats multistability in meaning and the application of chaos theory and dissipative structures in semantics Chapter 5 outlines the global framework of a stratified universe of meanings and Chapter 6 prepares the way for Part Two the analysis of narrative texts Oral narratives of personal experience are the prototypical form in which experienced events are organized with the aim of remaking a piece of reality In Chapter 7 a discrete grammar based on vectorial schemata is developed Chapters 8 and 9 elaborate the syntax of narratives in Chapter 7 Chapter 10 progress to conversational dynamics

Neglected Aspects of Motion-Event Description Laure Sarda, Benjamin Fagard, 2022-07-15 The idea of this book on Neglected Aspects of Motion Event Description comes from the observation that over the last 30 years much attention has been devoted to the manner path divide in relation to the distinction between Verb Framed and Satellite Framed languages This mainstream focus has left aside other aspects of motion event descriptions The chapters of this volume take an in depth look at three less studied aspects of motion expression The first part of the book focuses on directional deixis especially in relation to associated motion and visual motion The second part explores variations in Source Goal asymmetries The third part investigates different types of motion event constructions e g with various types of co events Many languages are taken into consideration throughout the 11 chapters which gives the volume a clear typological dimension This book is intended for students and academics interested in motion spatial semantics typological variation and cognitive linguistics

Processing Syntax and Morphology Ina Bornkessel-Schlesewsky, Matthias Schlewsky, 2009-09-03 This book reviews interdisciplinary work on the mental processing of syntax and morphology It focuses on the fundamental questions at the centre of this research for example whether language processing proceeds in a serial or a parallel manner which areas of the brain support the processing of syntactic and morphological information whether there are neurophysiological correlates of language processing and the degree to which neurolinguistic findings on syntactic and morphological processing are consistent with theoretical conceptions of syntax and morphology The authors

describe the outcomes of methods in neurophysiology for example functional magnetic resonance imaging behavioural psycholinguistics and neuropsychological lesion studies and provide brief introductions to the methods themselves They extend basic findings at the word and sentence level by considering how the mental processing of syntax and morphology relates to prosody discourse semantics and world knowledge They have divided the work into four parts concerned with word structure sentence structure processing syntax and morphology at the interfaces and a comparison of different models of syntactic and morphological processing in the neurophysiological domain The book is directed at graduate students and researchers in theoretical linguistics psycho and neurolinguistics neurophysiology and psychology

Connecting Visual Literacy to Theory Ricardo Lopez-Leon, Dana Statton Thompson, 2024-07-12 This volume seeks to close the gap between education systems across the world that remain systematically devoted to understanding our world through text rather than images Through an exploration of the contributions of well and lesser known visual thinkers from across disciplines and geographies the contributors offer contemporary appraisals and modern re conceptualizations of the subject The book illuminates how experts from various disciplines ranging from art communication education and philosophy laid the foundations for what we know today as visual literacy These foundations and innovative ways of thinking and understanding images have been disruptive but until now have been relatively understudied As such the chapters examine the context of individual thinkers expanding upon famous theories and providing new insight into why these visual and cognitive processes are imperative to learning and education and to disciplines spanning art history museum studies philosophy photography and more The authors all members of the International Visual Literacy Association IVLA are committed to advancing the study of visual literacy by raising new questions and proposing new routes of inquiry A unique and timely exploration of the way we derive meaning from what we see and how we interact with our visual environment it will appeal to researchers scholars and educators from a range of interdisciplinary backgrounds across art art education art history design information science photography and visual communication
