Weird Parents Audrey Wood,2000 A young boy comes to accept his parents unusual behavior which includes packing surprises in his lunch box and greeting strangers they meet on the street Weird Parents Audrey Wood,1995-01-01 A young boy comes to accept his parents unusual behavior which includes packing surprises in his lunch box and greeting strangers they meet on the street My Weird Parents Shirley Ann Long,2012-10-12 This is a short story fiction book written about parents who were considered weird by their children as well as their community and society for the ways in which they both treated their children and behaved towards their neighbors and friends The children had to endure much hardships and pains They were obedient children and did exactly what their parents instructed them to do even if it wasn't normal The oldest child Belinda decided one night while in her bed crying she had took enough of this torture coming from them and made up in her mind that she had to find a way to help end this awful plight she and her brother was going through She couldn't find no way out everything she did or tried had failed They wouldn't listen to anything she had to say to them Neither one of her parents were kind or compassionate enough to lend a listening ear to Belinda and what she had to say It was either their way or no way That is the way things were in this home Her parents had no idea that Belinda was talking to God asking him for guidance because she needed his help and that is when God decided to give Belinda a revelation that night When she received the revelation Belinda was able to go to sleep peacefully knowing that everything was going to be alright because she had gotten a divine revelation from God instructing her on how to deal with her parents problems After her revelation that night things in her home began to change drastically Her parents became more responsible loving and kind they both began to communicate to her and her little brother more Her parents stopped mistreating her friends and the neighbors also They began to go to church and turned their lives completely around Learning Without Lessons David F. Lancy,2024-01-09 In Learning Without Lessons David F Lancy offers the first attempt to review the principles and practices for fostering learning in children that are found in small scale pre industrial communities across the globe and through history His analysis yields a consistent and coherent pedagogy that can be contrasted sharply with the taken for granted pedagogy found in the West His analysis finds that teachers classrooms lessons verbal instruction testing grading praise and the use of symbols are rare or absent from indigenous pedagogy Instead field studies document the prevalence of self guided learners who rely on observation listening learning in play from peers the hands on use of real tools and learning through voluntary participation in everyday activities such as foraging *How to Be a Slightly Better Parent* Reynold Bean,Reynold Bean,1991 PSYCHOLOGY POP PSYCHOLOGY **A Jungian Analysis of Toxic Modern Society** Erik Goodwyn,2024-08-08 Using evidence from anthropology neuroscience psychiatry analytical psychology and evolutionary biology within this book Dr Erik Goodwyn explores the current cultural psyche and how elements of modern society are contributing to the current loneliness epidemic Despite tremendous advances in technology developed countries are more anxious depressed suicidal

and addicted today than we were 100 years ago Why Research from many fields of study show that loneliness has become an epidemic in the industrialized world causing very real medical consequences such as addiction depression anxiety and suicide all things which have been on the rise for decades And yet because of various historical philosophical and economic reasons we do not nurture traditional cultural ways of satisfying these instincts This book will explore the idea that stopping the rising misery will not only require socioeconomic changes but will require a profound cultural change Only then will we be able to stop the slow starvation of social belonging archetypal narratives rituals spirituality and images as vessels of meaning This will be an insightful read for depth psychologists and scholars of analytical psychology as well as health care providers therapists sociologists and those with an interest in cross cultural studies

Lancy,2015 Enriched with anecdotes from ethnography and the daily media this revised edition examines family structure reproduction profiles of children s caretakers their treatment at different ages their play work schooling and transition to adulthood The result is a nuanced and credible picture of childhood in different cultures past and present

The Lullaby's Outline Stéphane Aubinet,2026-05-05 This book offers an anthropological exploration of the lullaby a type of music found in nearly all human societies The chapters review diverse ethnographic cases from bedtime routines in Western societies to historical and Indigenous practices Moving beyond common definitions of the lullaby the author integrates diverging instances of lulling including mythological narratives herding songs used to soothe cattle sleep inducing music composed for monarchs electronic musical dolls and protective spells The work considers how these varied examples can add layers and depth to our understanding of what it means to lull a child The investigation displays an innovative approach to musical comparison by investigating the partial connections that different traditions display with one another Positioned at the meeting point of comparative musicology and ethnomusicology the study combines comparative gestures with original fieldwork and acknowledges both the importance of cross cultural similarities and ethnographic entanglements that complicate generalisations Starting from four European traditions the Irish suantra the Georgian iavnana the Ancient Roman nenia and the S mi dovdna the study delves into themes of power spirituality death magic technologies and Indigenous ontologies which echo across diverse cultural contexts without being quite universal It will be of interest to scholars of anthropology music folklore and beyond
