Collected Poems Joseph Ceravolo, 2013-05-20 Like an underground river the astonishing poems of Joseph Ceravolo have nurtured American poetry for fifty years a presence deeply felt but largely invisible Collected Poems offers the first full portrait of Ceravolo's aesthetic trajectory bringing to light the highly original voice that was operating at an increasing remove from the currents of the time From a poetics associated with Frank O'Hara and John Ashbery to an ever more contemplative deeply visionary poetics similar in sensibility to Zen and Dante William Blake and St John of the Cross this collection shows how Ceravolo's poetry takes on a direct quiet lyricism intensely dedicated to the natural and spiritual life of the individual As Ron Silliman notes Ceravolo's later work reveals him to be one of the most emotionally open vulnerable and self knowing poets of his generation Many new pieces including the masterful long poem The Hellgate are published here for the first time This volume is a landmark edition for American poetry and includes an introduction by David Lehman

**The Art of Post-tonal Analysis** Joseph Nathan Straus, 2022 The Art of Post Tonal Analysis consists of analyses of thirty three musical passages or entire short works in a variety of post tonal styles For each piece author Joseph N Straus shows how it is put together and what sense might be made of it how the music goes Along the way he shows the value of post tonal theory in addressing these questions and in revealing something of the fascination and beauty of this music The works under study are taken from throughout the long twentieth century from 1909 to the present Within the atonal wing of modern classical music the composers discussed here some canonical and some not represent a diversity of musical style chronology geography gender and race ethnicity Musical examples plus a companion website full of analytical videos carry the burden of the analytical argument with rarely more than a few sentences of prose at a time In writing these analyses Straus imagined teaching these pieces to a class of undergraduate or graduate students seated at the piano pointing at score listening as they go the book is intended as a record of these hypothetical classes His approach could be loosely described as transformational rooted in an interest in seeing how musical ideas shapes intervals motives grow change and effloresce When musical ideas are obviously dissimilar and possibly in conflict the book teases out subtle points of connection between them Above all the book aims to create rich networks of relatedness allowing our musical minds and musical ears to lead each other along some of the many enjoyable pathways through this challenging and beautiful music
