of Business Statistics delivers clear and understandable explanations of essential business statistics concepts through the use of case studies and examples Along with the text this edition offers a wide range of supplements that bring greater clarity to the text s concepts while also giving you the flexibility of additional coursework From publisher s description *Project Management* Clifford F. Gray,Erik W. Larson,2008 As the market leading textbook on the subject Project Management The Managerial Process 4e is distinguished by its balanced treatment of both the technical and behavioral issues in project management as well as by its coverage of a broad range of industries to which project management principles can be applied It focuses on how project management is integral to the organization as a whole The 4th edition reflects the latest changes found in the practice Other texts discuss the topics covered in this text but they do not view oversight as the project manager s operating environment as does Gray Larson **The Journal of Product Innovation Management** ,2003 **The Writers Directory** ,2013 *Managing Services* Mark M. Davis,Janelle N. Heineke,2003 Managing Services is an alternative to the growing service management market in that it is more managerial and procedural placing less emphasis on quantitative tools and more on strategic concerns The benefit of this approach is that it views services from the perspective of the general manager rather than the operations specialist This is important especially considering most students taking this course aspire to and are preparing for managerial positions **Value-Driven Operation Mgmt** Melnyk,Morgan Swink,2002-04-01 *Forthcoming Books* Rose Arny,2003 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 **Operations Management** Steven A. Melnyk,David R. Denzler,1996 The value driven approach to operations management reaches beyond TQM which is limited by its focus on turning out quality products to thinking in terms of building systems that respond to the changing needs of customers rather than simply building products at the lowest possible cost This text is not structured around the traditional elements of planning organizing controlling and feedback but rather around the concepts and practicalities that form the new approach Annotation copyright by Book News Inc Portland OR Proceedings of the ...
