Directions for Institutional Research provides practical insight and guidance to campus leaders who are attempting to accelerate the transformation of their campuses to meet the challenges and opportunities of the Knowledge Age. The volume concludes with a presentation of the five families of basic competencies necessary for particular academic programs or campuses to succeed in the twenty-first century: 1 planning and change processes operating at Knowledge Age standards of timeliness, customization, and flexibility; 2 advanced IT infrastructure and skills in its use; 3 a new generation of tools for learning, interactivity, certification of mastery, and personal productivity; 4 new financial paradigms; and 5 supercharged strategic alliances.
