Managerial Opportunity Recognition in Business Model Innovation Marijan Topic, 2017-11-06 Master s Thesis from the year 2017 in the subject Business economics Business Management Corporate Governance Friedrich Alexander University Erlangen Nuremberg language English abstract The goal of this Master s thesis is to examine the relationship between managerial OR and business model innovations BMIs in established organizations In order to meet the complexity of the topic this thesis is focused on factors that hinder or help managers in recognizing business opportunities Focusing on incumbent firms this paper conducts further research to identify the main influencing factors including challenges vulnerabilities and obstacles The thesis is divided into six parts starting with a brief description of the research topic including the problem position and objective Second a literature review is conducted to summarize the state of research including theoretical foundations In today s scientific literature the two fields of research BMI OR are by no means treated independently from each other For the time being BMI and OR are considered independently of each other It is then shown exactly how current literature treats managerial OR with respect to BMI The results are then synthesized into a summary highlighting what is known and not known The areas of controversy in the literature are identified and questions are formulated that need further research The third part of the thesis consists of expert interviews Derived from the literature review a guideline for interviews is developed to treat the research gaps in an appropriate way and to meet the complexity of the task setting The explorative survey aims to identify the challenges and drivers of managerial OR in BMI and to identify approaches that have not yet been addressed in scientific literature to a significant extent The core of the analysis is the splitting of the BM into the elements value proposition value creation and value capture This ensures that all the facets of a company s BM are accurately addressed and form the basis for high quality results In order to cover a broad range the paper does not focus on a certain industry The interviews are conducted with an array of decision makers in organizations that have attempted or are currently attempting to innovate their BM at the business unit level or the corporate level

Financial Accounting in an Economic Context Jamie Pratt, 2010-10-18 Grounded in financial statements Financial Accounting allows accountants to see not only the impact of financial transactions in financial statements but also the impact of transactions on overall business decisions The eighth

edition offers new elements designed to sharpen Pratt's economic decision making foundation with a more timely real world focus. Up to date expanded and detailed IFRS coverage is now included. The SEC 2014 roadmap is explored in all chapters. Comprehensive coverage of real world financial crisis issues is presented. Accountants will also find more discussions on the increasing role of management's assessment of internal controls over financial reporting.

Value-Creation in Middle Market Private Equity Mr John A Lanier,2015-02-28 Seen as the job creating engine within the U S economy small business is often a prime target market for private equity investment. Indeed private equity backs over six of each 100 private sector jobs. Both the small businesses in which private equity firms invest and the private equity firms making the investments face inter and intra company fiduciary leadership challenges while implementing formulated strategy. The architecture of each private equity firm portfolio company relationship must be uniquely crafted to capitalize on projected ROI that is memorialized in the investment thesis. Given the leveraged capital structure of portfolio companies the cost of a misstep is problematic. In *Value Creation in Middle Market Private Equity* John A Lanier examines relationships between middle market private equity firms and their portfolio companies.

Value Creation 4.0 - Marketing Products in the 21st Century Gábor Rekettye,2019-08-15 *Value Creation 4.0* is a marketing guide to the age of the fourth industrial revolution. Industry 4.0. This title draws attention to the situation which poses new challenges and risks for the whole of humanity. The book takes an essentially practice oriented approach. The book intends to highlight the importance of the topic, define its conceptual framework and present its practical applications. The book is therefore primarily recommended for practitioners. The topics of the book together with the supporting exhibits and cases which also include international dimensions provide information for them that can help increase their competitiveness. The book can also be very handy in higher education. Whole courses can be built on it as the book comprises 4 parts and 14 chapters which can provide the basis for lectures. Each part is illustrated with cases and some of the more than 30 exhibits could be used for the efficient processing of the material and for further reflection.

Strategic Value Management Juan Pablo Stegmann,2009-10-05 Innovative strategic management solutions for today's market. *Strategic Value Management* addresses common problems among business managers and other professionals involved in thinking about developing and managing organizations. In it author Juan Pablo Stegmann integrates all strategic management and business strategy into an innovative standard that introduces key metrics to strategic management and stock value creation. He argues that most complex business issues can be reduced to the three dimensions of stock value creation: profits, sales, growth and capital that are linked to three critical strategic management decisions: competition, innovation and resources. His new approach indicates that every strategy has a clear dollar metric which can measure its consequences. The strategies in terms of stock value. Competitive and growth strategies are analyzed along with economic, financial, dynamic and contingent approaches. Includes a companion CD ROM which contains Stegmann's proven model for strategic management and stock value creation. Ethical consequences of

strategic decisions are introduced showing how ethics are linked to long term stock value creation Explains the roots of the current financial crisis by examining the link between the financial world and strategic management and proposes possible solutions For any looking to enhance their understanding of this discipline Strategic Value Management offers a new conceptual model for thinking about business strategy and its link to stock value creation **Performance Dashboards and Analysis for Value Creation** Jack Alexander,2011-01-11 No matter what industry your company competes in you need to have a firm understanding of how to create a direct link between shareholder value and critical business processes in order to improve performance and achieve long term value Performance Dashboards and Analysis for Value Creation contains the information and expertise you need to do just this and much more **The Railroad Telegrapher** ,1923 **Wages and Labour Costs** Edmund Dane,1927
