The Chameleon Protocol: Pico della Mirandola and the Science of Self-Creation Alfonso Borello, THE CHAMELEON PROTOCOL Pico della Mirandola and the Science of Self Creation The Renaissance was not a painting It was a prototype History remembers Florence as a museum of marble statues and soft light This is a lie The 15th century was a blast furnace It was a containment zone for high velocity ideas And in 1486 a twenty three year old genius named Giovanni Pico della Mirandola walked into the fire to initiate a hard reset on the human condition The Medieval Mind was a cage For a thousand years reality was a containment field You were born a serf you died a serf The Church held the Admin passwords The King held the hardware You were a user with restricted access The universe was a fixed hierarchy and biology was destiny Pico broke the chain He didn t just write a speech He drafted the Oration on the Dignity of Man the original manifesto of human potential His thesis was terrifyingly simple God ran out of archetypes He gave man no fixed seat no form of thy own He made us the Indeterminate Variable We are not static statues We are the only open source objects in a closed source universe This is not a history book It is a manual for Designed Consciousness The Chameleon Protocol bridges the 500 year gap between the candlelit study of the Villa Careggi and the

fMRI machines of modern cognitive science It reveals that Pico s mysticism was actually the pre technological definition of Radical Neuroplasticity Inside you will learn to Override the Factory Settings Reject the Default Mode of your biology and culture Realize that your nature is that you have no nature Execute the Syncretic Diet Pico raided Jewish Kabbalah Hermetic Magic and Christian Theology to find the hidden unity Learn how to use Sensory Substitution to hack your spiritual wetware Input Architecture Navigate the Binary Risk Freedom is dangerous You can choose to regenerate into an Angel High Level Metacognition or degenerate into a Beast The Limbic Reaction If you do not design the ascent gravity designs the descent Deploy the Magia Magic is not sorcery It is Causal Linguistics It is the art of programming reality through the command line of your internal dialogue The Middle Ages are over The Default Settings have been unlocked The input ports are open You are the pilot in the cloud bank You can remain a tourist in the simulation Or you can pick up the chisel You are the Indeterminate Variable What will you build

Biohackers Magazine Issue 9 Biohackers Magazine , The importance of continual self improvement and development cannot be understated especially in the world of biohacking But there is also something that cannot be overstated in this same realm of personal health and growth and that is the vital role that women play Often argued and affirmed as the more intuitive of the 2 sexes women have and continue to push themselves and their community towards their health wellness and wisdom goals In a lot of ways men have it easy Our bodies instruction manual is comparable to a generic IKEA coffee table's guided instructions not a lot to decipher But some could compare women bodies manuals to NASA's rocket construction directions a lot of steps and A LOT to understand Granted the woman's body is easily the more attractive of the two in my opinion and I want it to be clear that although this statement is biased I mean this as a more aesthetic art like manner The symmetry the intricacy the mysteriousness the gracefulness just the way everything connects Perhaps it's because of this clear advantage in the beauty category that it takes a lot to master all the processes within it It once was said that in the beginning God first made man but then afterwards he took a long look at him and then told himself I can do better than that and then made woman Women are at the forefront of biohacking and it's clear that the industry would not be where it is today without them Due to women having to figure out all

of their complexities but also having the tenacity and courage to do so they have stood side by side with men and helped to share the helpful and needed knowledge of health optimization with the world It is with great pleasure and respect that we dedicate this issue to all of the women in the world striving to promote good health strong lives and clearer minds Although we have had and will continue to have female authors and subject matter in past and future issues every article contained inside this particular issue is either written by a female author or purely feminine in subject matter This is our way to take a moment to highlight and thank all those women out there doing their thing At Biohackers Magazine we believe no we know that every woman s thought and word is just as important as every man s And we are here to provide this magazine as the ontic evidence to that Without further ado enjoy your new woman ful issue

Consumer Genetic Technologies I. Glenn Cohen, Nita A. Farahany, Henry T. Greely, Carmel Shachar, 2021-09-16 For the average person genetic testing has two very different faces The rise of genetic testing is often promoted as the democratization of genetics by enabling individuals to gain insights into their unique makeup At the same time many have raised concerns that genetic testing and sequencing reveal intensely personal and private information As these technologies become increasingly available as consumer products the ethical legal and regulatory challenges presented by genomics are ever looming Assembling multidisciplinary experts this volume evaluates the different models used to deliver consumer genetics and considers a number of key questions How should we mediate privacy and other ethical concerns around genetic databases Does aggregating data from genetic testing turn people into products by commercializing their data How might this data reduce or exacerbate existing healthcare disparities Contributing authors also provide guidance on protecting consumer privacy and safety while promoting innovation
