Short stories have to accomplish a nearly impossible magic trick to introduce a world often much stranger than our own and make you care about it in a matter of pages writes R F Kuang in her introduction The most important part of this magic trick is just a willingness to get weird The stories in The Best American Science Fiction and Fantasy 2023 are brimming with bizarre and otherworldly premises Women can t lie or fall in love Fathers feed their children ghost preserves Souls chase one another through animal incarnations Yet these stories are grounded deeply in our reality Out of these stories weirdness emerges the cruelty of border enforcement the horror of legislation restricting reproductive freedom the frightening pace of AI The result is a stunning immersive intensely felt experience showing us less of what the world is and more of what it could be
