The Crowd Inside:

Wisdom of the Crowd in Experiments Larissa Katharina Senninger,2018-11-03 Larissa Katharina Senninger analyses the phenomenon of wisdom of the crowd in experimental capital markets Aiming to find out which market mechanism is able to aggregate different information in a meaningful way a continuous double auction and a call auction mechanism are tested In line with expectations markets with continuous double auction mechanism are better able to aggregate information and additionally take a shorter time The author shows that receiving more information enables subjects to make better estimations whereas more information improves the quality of estimations significantly only if it is a lot more information

The Crowd in the Early Middle Ages Shane Bobrycki,2024-11-19 The importance of collective behavior in early medieval Europe By the fifth and sixth centuries the bread and circuses and triumphal processions of the Roman Empire had given way to a quieter world And yet as Shane Bobrycki argues the influence and importance of the crowd did not disappear in early medieval Europe In *The Crowd in the Early Middle Ages* Bobrycki shows that although demographic change may have dispersed the urban multitudes of Greco Roman civilization collective behavior retained its social importance even when crowds were scarce Most historians have seen early medieval Europe as a world without crowds In fact Bobrycki argues early medieval European sources are full of crowds although perhaps not the sort historians have trained themselves to look for Harvests markets festivals religious rites and political assemblies were among the gatherings used to regulate resources and demonstrate legitimacy Indeed the refusal to assemble and other forms of slantwise assembly became a weapon of the powerless Bobrycki investigates what happened when demographic realities shifted but culture religion and politics remained bound by the past The history of crowds during the five hundred years between the age of circuses and the age of crusades Bobrycki shows tells an important story one of systemic and scalar change in economic and social life and of reorganization in the world of ideas and norms *Nationalism and the Crowd in Liberal Hungary, 1848-1914* Alice Freifeld,2000-07-17 Audiences at theaters fairs statue raisings and commemorations of national figures political rallies ethnic mobs May Day celebrations monarchical festivities and finally war rallies all take up places in this history Not only insurgent crowds but festive ones as well have political and material goals Freifeld finds And hope for liberal nationalism which Hungarian crowds carried from their experience of 1848 thus continued to confront the monarchy its bureaucracy and the gentry Evaluation in the Crowd. Crowdsourcing and Human-Centered Experiments Daniel Archambault,Helen Purchase,Tobias Hoßfeld,2017-09-27 As the outcome of the Dagstuhl Seminar 15481 on Crowdsourcing and Human Centered Experiments this book is a primer for computer science researchers who intend to use crowdsourcing technology for human centered experiments The focus of this Dagstuhl seminar held in Dagstuhl Castle in November 2015 was to discuss experiences and methodological considerations when using crowdsourcing platforms to run human centered experiments to test the effectiveness of visual representations The inspiring Dagstuhl atmosphere fostered discussions and brought together

researchers from different research directions The papers provide information on crowdsourcing technology and experimental methodologies comparisons between crowdsourcing and lab experiments the use of crowdsourcing for visualisation psychology QoE and HCI empirical studies and finally the nature of crowdworkers and their work their motivation and demographic background as well as the relationships among people forming the crowdsourcing community
