

OF MODERN POETRY

The poem of the mind in the act of finding
What will suffice. It has not always had
To find: the scene was set; it repeated what
Was in the script.

Then the theatre was changed
To something else. Its past was a souvenir.

It has to be living, to learn the speech of the place.
It has to face the men of the time and to meet
The women of the time. It has to think about war
And it has to find what will suffice. It has
To construct a new stage. It has to be on that stage
And, like an insatiable actor, slowly and
With meditation, speak words that in the ear,
In the delicatest ear of the mind, repeat,
Exactly, that which it wants to hear, at the sound
Of which, an invisible audience listens,
Not to the play, but to itself, expressed
In an emotion as of two people, as of two
Emotions becoming one. The actor is
A metaphysician in the dark, twanging
An instrument, twanging a wiry string that gives
Sounds passing through sudden rightnesses, wholly
Containing the mind, below which it cannot descend,
Beyond which it has no will to rise.

It must
Be the finding of a satisfaction, and may
Be of a man skating, a woman dancing, a woman
Combing. The poem of the act of the mind.

The Poet's Mind Gregory Tate, 2012-11-08 The Poet s Mind is a major study of how Victorian poets thought and wrote about the human mind It argues that Victorian poets inheriting from their Romantic forerunners the belief that subjective thoughts and feelings were the most important materials for poetry used their writing both to give expression to mental processes and to scrutinise and analyse those processes In this volume Gregory Tate considers why and how psychological analysis became an increasingly important element of poetic theory and practice in the mid nineteenth century a time when the discipline of psychology was emerging alongside the growing recognition that the workings of the mind might be understood using the analytical methods of science The writings of Victorian poets often show an awareness of this psychology but at the same time the language and tone of their psychological verse and especially their ambivalent use of terms such as brain mind and soul voice an unresolved tension felt throughout Victorian culture between scientific theories of psychology and metaphysical or religious accounts of selfhood The Poet s Mind considers the poetry of Browning Tennyson Arnold Clough and George Eliot offering detailed readings of several major Victorian poems and presenting new evidence of their authors interest in contemporary psychological theory Ranging across lyric verse epic poetry and the dramatic monologue the book explores the ways in which poetry simultaneously drew on resisted and contributed to the spread of scientific theories of mind in Victorian Britain **The Plays and Poems of Cyril Tourneur: Introduction.
