Yugoslavia Development:

Development and Social Change in Yugoslavia Peter Jambrek, 1975 Monograph on politics and social change under socialism in Yugoslavia examines relationships between modernization and political development and covers political and social structures decentralization central government and institutional frameworks political participation in local government etc Bibliography pp 269 to 276 references and statistical tables *Regional Development In Communist Yugoslavia* Dijana Plestina, 2019-07-11 The brutal war now raging in what was Yugoslavia the author argues is fueled not merely by interethnic hatred but also by longstanding disparities in economic well being among republics and regions The Communist leadership having stated its intention when it took power to eliminate economic disparities nonetheless failed to confront the conflict of interests that distorted the country s economic policy and thus never worked out a coherent strategy for regional development Interregional tensions were inflamed by the failure to close the gap between wealthy and poor areas directly contributing to the breakup of the country Basing her argument on longitudinal data and on in depth interviews with Yugoslav leaders at federal and regional levels Milovan Djilas Svetozar Vukmanovic Tempo Bosko Gluscevic Hasan Zolic and several dozen others Dijana Plestina examines and assesses the economic inequalities as well as the effects that the leadership s regional policies had on them She shows that despite the mandate for equalization that was part of socialist doctrine Yugoslav leaders were at first unwilling and later unable to formulate policies that would enhance the economic well being of the poorest regions Instead they adopted a strategy of top down growth which enhanced the further development of the wealthier regions Later partially in an effort to placate the disadvantaged they shifted funds to some of the less developed regions Rather than promoting equality such ad hoc solutions fostered competition for scarce resources and intensified political cleavages Plestina also looks at how the devolution of decisionmaking from central to regional levels designed to increase government legitimacy and efficiency actually provided an opportunity for regional leaders to build independent power bases This trend in conjunction with the economic slump of the 1980s further eroded the unity of the federation

Yugoslavia David A. Dyker, 2011-02-28 This book first published in 1990 analyses contemporary Yugoslavian development strategy in its historical and political context assessing how corruption negligence and an emphasis on industry to the detriment of agriculture and trade have all played a part in bringing Yugoslavia close to financial and political chaos The book concludes by considering the contemporary prospects for a more integrated policy approach in the midst of the country s political crisis

Economic Development of Communist Yugoslavia, 1947-1964 Joseph T. Bombelles, 1968 Study of economic development in Yugoslavia during the period from 1947 to 1964 covers the role of USA in providing technical cooperation economic planning agrarian reform social implications and economic implications of political problems investment and income distribution in selected developing areas the balance of payments etc and includes a comparison of industrialization in Yugoslavia with that in the USSR Bibliography pp 209 to 215 and statistical tables *Yugoslavia,*

Development with Decentralization Vinod Dubey, World Bank, 1975 Yugoslavia represents both a new economic system and a new kind of socialist society which began to evolve nearly 25 years ago The system is described and assessed in this report The Yugoslav system is characterized by social ownership and control of the means of production with worker self management and decentralization of political and economic decisions As a corollary of decentralized decision making there is a gradual reduction of centralized planning and control and a greater reliance on markets as a guide to the allocation of resources Progress has been accompanied by an increasingly open economy and a more liberal foreign exchange and trade system intended to improve the efficiency of domestic industry and to generate higher standards of living The analysis of the development experience and problems of the Yugoslav economy that is presented in this report while indicating that significant problems are still to be solved nevertheless gives a favorable assessment of the country's future economic performance The report suggests that Yugoslavia's demonstrated ability to combine rapid economic growth and fundamental institutional changes over a long period of time speaks for the basic soundness of its line of economic development The country has also demonstrated its ability to confront and solve persistent and difficult domestic and external problems Other bases for confidence about development prospects as reflected in the report include the country's natural and human resources together with its pragmatic and dynamic approach to economic issues readiness to consider and undertake institutional changes and a general commitment to an open market oriented economy

Sekretarijat za informacije, 1961 **Yugoslavia, Self-management Socialism and the Challenges of Development** Martin Schrenk, Cyrus Ardalan, Nawal A. El Tatawy, World Bank, 1979 Report of a mission sent to Yugoslavia by the World Bank [The Economy of Yugoslavia](#) Fred Singleton, Bernard Carter, 2025-05-01 The creation of the Yugoslav state at the end of the First World War brought together the half assimilated remains of several societies in various stages of development each with centuries of rule by foreign powers It was not until the Second World War when a fresh start was made under a new revolutionary regime that Yugoslavia made substantial economic headway and progressed from an underdeveloped country to a medium rank level of development First published in 1982 *The Economy of Yugoslavia* charts the progress of the Yugoslav economy over sixty years and demonstrates how it achieved rapid quantitative progress in the post war period The book also shows how Yugoslavia's own brand of modified socialist planning succeeded in some areas but did not obviate many of the problems such as inflation and unemployment which have been so familiar to western societies The great strength of the book is that it does not discuss the economy in isolation from the many non economic factors which did so much to shape Yugoslavia's society This book will be of interest to students and researchers of history and economics
