A Selected Listing of NASA Scientific and Technical Reports for ... United States. National Aeronautics and Space Administration. Scientific and Technical Information Division,1966 *Zero Gravity* Damian Garside,2014-02-06 My poetry covers a great range in verbal style tone and subject matter It is often markedly ironic and or satirical particularly when dealing with social or political issues The poetry also tends to want to explore spiritual and or philosophical questions and can be seen to reflect the poets English ancestry and literary heritage his sense of the history and changing political landscape of South Africa and to raise the great conundrums regarding the place of human beings in a cosmos that science is revealing is far stranger than we thought perhaps stranger than we ever could have imagined Lastly the poems particularly those written over the last few years can show a somewhat playful even irreverent attitude to the idea of poets and poetry that we can characterize as postmodern but which for all their playfulness and reference to popular culture raise concerns about the future of poetry and the human values with which poetry has always strongly identified in our globalized mass media world of the sound bite and the visual image *Scientific and Technical Aerospace Reports* ,1963 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database **Zero Gravity - Trackers Series - Green, Pl-5961** Sarah Fleming,2005-12-01 **NASA Scientific and Technical Reports** United States.
