ZION RECONSIDERED

The classical Zionist doctrines are here examined from the perspective of their "fulfillment" in the State of Israel and their designs upon the structure of American Judaism, and also in terms of the religious meanings of the Biblical and Rabbinic concepts which Zionism has appropriated for its own secular and political uses.

This thoughtful analysis of a controversial subject deserves an objective, dispassionate hearing. Because such books are often victims of a conspiracy of silence or emotional bias, we are sending out a number of copies, well in advance of publication, to those we know will evaluate this book on its own merits—before the partisans of either side have had an opportunity to work their bias. We will appreciate your comments.
