**When the Bough Breaks...** Lloyd Timberlake, Laura Thomas, 2013-11-05 TO ACCOMPANY A MAJOR ITV DOCUMENTARY We are poisoning our planet and destroying the lives of our children In the west arguments rage over how much nuclear radiation and toxic dumping is safe while children continue to breath filthy air and eat food full of pesticides In the third World over four million children die each year from drinking unclean water Adults make the decisions but children pay the highest price They are physically vulnerable and politically powerless *When the Bough Breaks* is about the world we are creating for our children For too long we have used what we want from our planet now refusing to think about the future But it may still not be too late The book sets out what must be done and describes how people throughout the world are uniting to clean up the mess we have made

*The Proper Study of Religion* Sam Gill, 2020-08-11 The first generation of the proper academic study of religion might be said to span the half century from 1963 to 2013 Supreme Court Justice Clark's 1963 opinion clarifying that any liberal education is not complete without a study of comparative religion or the history of religion and its relationship to the advancement of civilization allowed the legal teaching of religion in secular universities The end of the first generation might be marked by the 2013 retirement of Professor Jonathan Z Smith 1938 2017 from the University of Chicago where he had taught since 1968 Arguably no scholar has made a greater contribution than did Smith to establishing a proper academic study of religion In *The Proper Study of Religion* Sam Gill charts an innovative course of development for the academic study of religion by creatively engaging the legacy of Jonathan Z Smith Gill's teacher and mentor for fifty years Their careers coincided with the explosive expansion of the study of religion in secular universities in the US that began in the mid 1960s Using an engaging narrative style Gill builds on Smith's work exploring an extensive range of absorbing and foundational topics including comparison as essential to academic technique and to human knowledge itself the important role of experience richly understood both to academic studies of religion and to religions as lived play philosophically understood as a core dynamic of Smith's entire program the relationship of academic document based studies to the sensory rich real world of religions and self moving as providing a biological and philosophical foundation on which to develop and expand upon a proper academic study of religion The foregrounding of human self movement new to the study of religion is informed by Gill
