The Memory of Thought Alexander García Düttmann,2002-07-09 The *Memory of Thought* reconstructs the philosophy of Adorno and Heidegger in the light of the importance that these thinkers attach to two proper names Auschwitz and Germanien In Adorno s dialectical thinking Auschwitz is the name of an incommensurable historical event that seems to put a provisional end to history as a negative totality In Heidegger s thinking of Being Germanien is a name inscribed in an historical mission on which the fate of Western civilization seems to depend it thus becomes the name of a positive totality of history
