*Divinity* Ev. Paul Mukendi, 2017-05-31 No book has ever attempted to deal with the subject of divinity in its entirety Here at long last is a comprehensive book dealing with divine beings in its complexity It provides the reader with accurate and insightful knowledge concerning the concept of divinity The author gives a clear explanation of the Triune nature of God God is one being manifest and existing in three distinct identities or persons which is further discussed as being comparable with the makeup of a human being God shares his divine nature with spiritual beings in the heavens with angels and on earth with humankind The divine nature of God resides in all spirits Therefore men have Gods nature in their spirits they can communicate with and receive the things of the spiritual realm Through sin humanity has lost the nature of God for all have sinned and fall short of the glory of God The purpose of the Bible is to spiritualize humankind because we have fallen short of the glory of God The broad focus of this book is to bring as many believers to a stage of maturity in the knowledge of Christ

Winged Spirit Tarot Deck David Sexton, 1999-07-01 The concept of the winged spirit as a messenger of the gods is an ancient yet timeless concept Many religions have told of these angels as a bridge between the known and the unknown The cards portray the beauty and the mystery of these angels and other winged spirits Spirits in Transcultural Skies Niels Gutschow, Katharina Weiler, 2014-11-26 The volume investigates the visualization of both ritual and decorative aspects of auspiciousness and protection in the form of celestial characters in art and architecture In doing so it covers more than two and a half millennia and a broad geographical area documenting a practice found in nearly every corner of the world Its transcultural approach aims at gaining insights into cultural dynamics and consistent networks and defining new historical mindmaps it examines reciprocal effects and aspects of interwovenness in art and architecture with a view to reconceptualizing their established realms The collection opens a window on a phenomenon in the history of art and architecture that has never before been considered from this perspective The book focuses on a transcultural iconography of aerial spirits goddesses and gods in art history pursuing a methodologically innovative approach in order to redefine and develop the practice of identification and classification of motifs as a means to understanding meaning and attempting to challenge the categories defined by academic disciplines Gandhāran School of Buddhist Paintings M. Nasim Khan, 2025-10-15 This book is the revised and updated version of the one published by the author in 2000 under the title *Buddhist Paintings in Gandhara* which focused mainly on the frescoes discovered in the Peshawar Valley ancient Gandhara However since this first publication archaeological discoveries have resulted many others which have also brought to light new clues about the art of Gandhara paintings These paintings are recently discovered by researchers mainly by the author himself in the different regions of Gandhara which remained historically under the strong influence of Buddhism from the 3rd century BCE to the 5th century CE This monograph includes not only the frescoes discovered so far in the region but also many other painted objects drawings and inscriptions depicted mainly inside rock shelters Such discoveries have therefore

led the author to re examine and analyse these paintings and to make them all available in a single corpus and with a new approach *Time's Whisperings* George Barlow,1880 [The Book of Angels](#) Stephen Miller,2019-06-04 Both collectively and individually we have a deep and abiding fascination with angels This book explores depictions of angels in the visual arts and in scripture and associated apocryphal and mystical writings specifically in the Hebrew and Christian Bibles and Islamic Zoroastrian and other ancient and latter day accounts It examines the visual clues artistic conventions and attributes that have been set down to help us to recognise angels in their particular roles and functions Certain writings have had a particularly influential bearing on our understanding of angels This text focuses on the hierarchies and orders proposed by the likes of Pseudo Dionysius St Thomas Aquinas and others In a new age of fascination with the metaphysical and supernatural in film television popular mythology and literature are we cementing or losing our connection with the authentic meaning and purpose that such vibrant and energised beings bring to our table This book contains more than 30 illustrations in a central colour plates section It also includes a useful glossary of terms and will prove a rich and enduring reference resource for libraries as well as a stimulating go to source for those interested in the world of angels and how human sensibilities and imaginative reasoning have enriched the subject as a starting point for interreligious dialogue
