Zero Patience:

Camp Comforts Christian Lassen,2014-03-15 *Camp Comforts* investigates the wide ranging impact of camp on AIDS literature and places this impact within two different traditions of camp analysis a politically subversive one that aims at social change and an aesthetically uplifting one that aims at personal healing Christian Lassen argues that camp may in fact serve both ends social change and personal healing and goes on to explore reparative reading practices in order to rehabilitate alleviation and relief as vital objectives in literary representations of gay grief In this way *Camp Comforts* reveals the workings that make camp so crucial a strategy for survival in times of AIDS *Software Engineering* Eric J. Braude,Michael E. Bernstein,2016-03-09 Today s software engineer must be able to employ more than one kind of software process ranging from agile methodologies to the waterfall process from highly integrated tool suites to refactoring and loosely coupled tool sets Braude and Bernstein s thorough coverage of software engineering perfects the reader s ability to efficiently create reliable software systems designed to meet the needs of a variety of customers Topical highlights Process concentrates on how applications are planned and developed Design teaches software engineering primarily as a requirements to design activity Programming and agile methods encourages software engineering as a code oriented activity Theory and principles focuses on foundations Hands on projects and case studies utilizes active team or individual project examples to facilitate understanding theory principles and practice In addition to knowledge of the tools and techniques available to software engineers readers will grasp the ability to interact with customers participate in multiple software processes and express requirements clearly in a variety of ways They will have the ability to create designs flexible enough for complex changing environments and deliver the proper products **Queer Universes** Wendy G. Pearson,Veronica Hollinger,Joan Gordon,2008 Contestations over the meaning and practice of sexuality have become increasingly central to cultural self definition and critical debates over issues of identity citizenship and the definition of humanity itself In an era when a religious authority can declare lesbians antihuman while some nations legalise same sex marriage and are becoming increasingly tolerant of a variety of non normative sexualities it is hardly surprising that science fiction in turn takes up the task of imagining a diverse range of queer and not so queer futures The essays in *Queer Universes* investigate both contemporary and historical practices of representing sexualities and genders in science fiction literature *Queer Universes* opens with Wendy Pearson s award winning essay on reading sf queerly and goes on to include discussions about sextrapolation in New Wave science fiction stray penetration in William Gibson s cyberpunk fiction the queering of nature in ecofeminist science fiction and the radical challenges posed to conventional science fiction in the work of important writers such as Samuel R Delany Ursula K Le Guin and Joanna Russ In addition *Queer Universes* offers an interview with Nalo Hopkinson and a conversation about queer lives and queer fictions by authors Nicola Griffith and Kelley Eskridge **The Queer Biopic in the AIDS Era** Laura Stamm,2021-12-31 *The Queer Biopic in the AIDS Era* offers a new account of the

AIDS crisis and the emergence of New Queer Cinema Author Laura Stamm asks why queer filmmakers repeatedly produced biographical films of queer individuals living and dead throughout the years surrounding the AIDS crisis Queer filmmakers engagement with the biopic evokes the genre s history of building life through the portrayal of lives worthy of admiration and emulation but it also points to another biopic history that of representing lives damaged By portraying lives damaged by inconceivable loss queer filmmakers challenge the illusion of a coherent self presumably reinforced by the biopic genre and in doing so their films open the potential for new means of connection and relationality *The Queer Biopic in the Aids Era* features fresh readings of the cinema of Derek Jarman John Greyson Todd Haynes Barbara Hammer and Tom Kalin By calling for a reappraisal of the queer biopic this book also calls for a reappraisal of New Queer Cinema s legacy and its influence of contemporary queer film As a whole this book pays particular attention to the biopic s queer resonances opening up its historical connections to projects of education public health and social hygiene along with the production of a shared history and national identity
