## **Stanford Album:**

*The Stanford Album* Margo Baumgartner Davis, Roxanne Nilan, 1989 The Stanford Album brings together some 600 photographs largely unpublished and an interpretive text to tell the story of the community life of Stanford University from the University's creation in 1885 through the Second World War. It is a fitting coincidence that at the same time Stanford is celebrating its Centennial Years 1985-91 the art of photography has reached its own anniversary of 150 years since the birth of the daguerreotype. The founders of the university Jane and Leland Stanford sat for their wedding portraits in 1850 and these daguerreotypes were just the beginning of the Stanfords' fascination with patronage of the new art form. Leland Stanford's perception of the value of the camera as a medium of documentation resulted in a superb pictorial record of the planning, construction and dedication of the university, some of which is reproduced in *The Stanford Album*. By the turn of the century technical advances in photography made possible the small handheld camera and at Stanford the snapshot image of campus life began to proliferate. Commercial photographers mainly concentrated on athletic events, drama productions, student parades and other campus rituals. Students who owned cameras intruded everywhere with the mysterious little boxes into dormitories, fraternities and sororities, classrooms, dances, picnics and beer busts. The book revisits a bygone Stanford. Through the magic of the camera lens a vanished world of college life comes alive again and we can see the community that existed yesterday under the same arcades where those at Stanford today study work and stroll. **1906 San Francisco Earthquake Centennial Field Guides** Carol S. Prentice, 2006-01-01 The twenty field trip guides in this volume represent the work of earthquake professionals from the earth science, engineering and emergency management communities. The guides were developed to cross the boundaries between these professions and thus reflect this diversity. Trips focus on the built environment, the effects of the 1906 earthquake, the San Andreas fault and other active faults in northern California. **Stanford**, 2009 Catalogue of the Central Lending Department ... Birmingham Public Libraries. Central Lending Dept, 1906 **Catalogue of the Central Lending Department, Ratcliff Place. New Ed. 1906** Birmingham Public Libraries, 1906 The Know-It-Alls Noam Cohen, 2006-03-24 From the former New York Times technology reporter, an enlightening breakdown of how Silicon Valley billionaires have shifted the popular discourse in their favor. Kirkus with a new introduction and fully updated chapters. Hailed as a valuable addition and a Top Tech Book by Wired.com. *The Know It Alls* offers a prescient chronicle of the rise of Silicon Valley as a political and intellectual force. Showcasing this new class of super geeks, former New York Times technology reporter Noam Cohen sketches finely researched portraits of the smart guys, including Jeff Bezos, Peter Thiel, Sergey Brin, Larry Page and Mark Zuckerberg, who fell in love with a radically individualistic anti-government ideal and then mainstreamed it. Now in this completely revised and updated edition, published one year after DOGE came to town, Cohen shows how the know-it-alls came to Washington, providing a richly documented account of how their influence has metastasized, their wealth has exploded and their technologies have

frayed America's social and political fabric. They know it all, claim that they support Trump because the Democrats abandoned them. Cohen reveals that Trump gave them the political opening they'd been waiting for all along. From the decisive influence of the pandemic to the emergence of Elon Musk as a national political force and the appearance of new characters and technologies, Cohen's unabashed critique in *Library Journal* is the essential guide to the real power players on today's political scene.
