deserve to be made available for future generations to enjoy We use state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works This is the story of an idea and how it played about in the minds of a number of intelligent people Whether there was any reality behind this idea it is not the business of the storyteller to say The reader must judge for himself One man believed it without the shadow of a doubt and he shall be the principal figure in the story Maybe we have not heard the last of this idea It spread from the talk of a few people into magazines and the popular press It had a vogue You certainly heard of it at the time though perhaps you have forgotten Popular attention waned Now the thing flickers about in people s minds not quite dead and not quite alive disconnected and ineffective It is a queer and almost incredible idea but yet not absolutely incredible It is a bare possibility that this thing is really going on
