Star Of Redemption:

The Star of Redemption Franz Rosenzweig, 1985-08-31 The Star of Redemption is widely recognized as a key document of modern existential thought and a significant contribution to Jewish theology in the twentieth century An affirmation of what Rosenzweig called the new thinking the work ensconces common sense in the place of abstract conceptual philosophizing and posits the validity of the concrete individual human being over that of humanity in general Fusing philosophy and theology it assigns both Judaism and Christianity distinct but equally important roles in the spiritual structure of the world and finds in both biblical religions approaches toward a comprehension of reality

The Star of Redemption Franz Rosenzweig, 2005-03-15 The Star of Redemption is essential reading for anyone interested in understanding religion and philosophy in the twentieth century Fusing philosophy and theology the book assigns both Judaism and Christianity distinct but equally important roles in the spiritual structure of the world Franz Rosenzweig finds in both biblical religions approaches to a comprehension of reality The major themes and motifs of The Star the birth life death and the immortality of the soul Eastern philosophies and Jewish mysticism the relationship between God world and humanity over time and revelation as the real biblical miracle of faith and path to redemption resonate meaningfully

Franz Rosenzweig's Philosophy of Existence E.R. Freund, 2013-04-17 The Star of Redemption which presents Franz Rosenzweig's system of philosophy begins with the sentence from death vom Tode from the fear of death originates all cognition of the All and concludes with the words into life This beginning and this conclusion of the book signify more than the first and last words of philosophical books usually do Taken together from death into life they comprise the entire meaning of Rosenzweig's philosophy The leitmotif of this philosophy is the life and death of the human being and not the I of philosophical idealism where man ultimately signifies for ethics no more than a point to which it ethics relates its problems as for science also he man is only a particular case of its general laws l Rosenzweig deals with the individual's actual existence that which is terminated by death he speaks of the individual's hic et nunc of his actions and decisions in the realm of concrete reality This philosophy is not an exposition of theoretical principles It is not concerned with man in general in abstract time but rather with the individual human being designated by a proper name living in his particular time Human existence in its finiteness and temporalness forms the focus in which Rosenzweig's motif can be gathered together

"The Star" for Beginners Francesco Paolo Ciglia, 2021-10-18 In The Star of Redemption written at the end and after World War I and published in 1921 Franz Rosenzweig presented an epoch making Jewish inspired philosophy of religion In three steps each with three chapters or books Rosenzweig unfolds in it his view of God the world and man their interrelationship and their contribution and role in the redemption of the world In this introduction young and old

Rosenzweig scholars take readers by the hand chapter by chapter book by book They lead safely through Rosenzweig s argumentation making sometimes difficult lines of thought comprehensible and plausible The chapter introductions open up reliable access for interested readers and new perspectives for connoisseurs

The Marrano Way Agata Bielik-Robson,2022-05-09 The Marrano phenomenon is a still unexplored element of Western culture the presence of the borderline Jewish identity which avoids clear cut cultural and religious attribution and precisely as such prefigures the advent of the typically modern free oscillating subjectivity Yet the aim of the book is not a historical study of the Marranos or conversos who were forced to convert to Christianity but were suspected of retaining their Judaism undercover The book rather applies the Marrano metaphor to explore the fruitful area of mixture and cross over which allowed modern thinkers writers and artists of the Jewish origin to enter the realm of universal communication without at the same time making them relinquish their Jewishness which they subsequently developed as a hidden tradition The book poses and then attempts to prove the Marrano hypothesis according to which modern subjectivity derives to paraphrase Cohen out of the sources of the hidden Judaism modernity begins not with the Cartesian abstract ego but with the rich self reflexive self of Michel de Montaigne who wrestled with his own marranismo in a manner that soon became paradigmatic to other Jewish thinkers entering the scene of Western modernity from Spinoza to Derrida The essays in the volume offer thus a new view of a Marrano modernity which aims to radically transform our approach to the genesis of the modern subject and shed a new light on its secret religious life as surviving the process of secularization although merely in the form of secret traces
