Coaching Star Performers Chris Edger,2019-01-31 Most business coaching books take a generic approach advancing catch all models and concepts for all employees But different employee cohorts have different coaching needs This book addresses a crucial managerial segment namely Star Performers small in number but highly critical to organizational energy innovation and growth Highly ambitious goal orientated and driven they are on the face of it relatively easy to read and understand However Star Performers often hide a dirty little secret The origins of their success owe more to negative rather than positive drivers They are inwardly at least less resilient than they outwardly seem Fear paranoia self doubt and self loathing are frequently the negative feelings and motivators that cause Star Performers to over index outperforming their competitive set However in the end these drivers can lead to major issues burn out addiction and or major conflict with other stakeholders This book explores how coaches can explore the hidden and blind selves of Star Performers to reframe these negative drivers into positive forces enabling Star Performers to add value on a more sustainable basis
