Evaluation of a Simplified Ridge Modelling Method G. Comfort,R. Abdelnour,Fleet Technology Limited,Transportation Development Centre (Canada),1990 **Intelligence Summary Northern Korea** ,1989 A Composite Giant Star Model with Isothermal Core Anders Reiz,1948

Encyclopaedia of Mathematics Michiel Hazewinkel, 2012-12-06 This ENCYCLOPAEDIA OF MATHEMATICS aims to be a reference work for all parts of mathematics. It is a translation with updates and editorial comments of the Soviet Mathematical Encyclopaedia published by Soviet Encyclopaedia Publishing House in five volumes in 1977-1985. The annotated translation consists of ten volumes including a special index volume. There are three kinds of articles in this ENCYCLOPAEDIA. First of all, there are survey-type articles dealing with the various main directions in mathematics where a rather fine subdivision has been used. The main requirement for these articles has been that they should give a reasonably complete up-to-date account of the current state of affairs in these areas and that they should be maximally accessible. On the whole, these articles should be understandable to mathematics students in their first specialization years to graduates from other mathematical areas and depending on the specific subject to specialists in other domains of science, engineers and teachers of mathematics. These articles treat their material at a fairly general level and aim to give an idea of the kind of problems, techniques and concepts involved in the area in question. They also contain background and motivation rather than precise statements of precise theorems with detailed definitions and technical details on how to carry out proofs and constructions. The second kind of article of medium length contains more detailed concrete problems, results and techniques.

Mechanics of Engineering and Machinery Julius Weisbach, 1878 The Haberdasher, 1917 **The Visible Universe**
John Ellard Gore, 1893 **Copernicus** John Louis Emil Dreyer, Ralph Copeland, 1884
