Perone, 2002-11-05 A horrible terrorist strike referred to as Operation Deadly Rain by the al Qaeda is about to be launched against the United States during the holiday season with perhaps hundreds of thousands of lives at stake An artificial intelligence program is nearly completed that might predict in advance when where and how this attack might occur When the CIA receives fragmentary warnings of the upcoming attack the university researchers secretly developing this program called StarSight are abruptly plucked from their comfortable academic posts and thrust into the frontline of the war on terrorism The stage is set for savage conflict Professor Tony Shane his beautiful research associate Sarah and a handful of university co workers are condemned by their academic colleagues for conducting a secret project for the CIA At the same time they are exposed to deadly attempts by terrorist agents to sabotage their work Unknown to the CIA and Senator Moorhouse who is coordinating the StarSight project the person responsible for Deadly Rain and ruthlessly attempting to terminate StarSight is himself a wealthy and respected American citizen and close friend of the Senator and his wife With political intrigue permeating university and government circles alike this adventure takes the reader from the comfort of the halls of ivy to the exotic settings of San Francisco Zurich Washington and the Italian Riviera Despite the personal trials of the researchers politicians and terrorists that unfold during this pre holiday period the purposeful efforts of the StarSight team to prevent the terrorist attack build to a heart stopping climax *Crisis on Flight 101* S. Perone, 2003-11 Upon inadvertently discovering telepathic time travel the rogue leader of a secret society of scientists threatens to re write American history and

virtually flip the world upside down with one cataclysmic stroke When Professor Tony Shane discovers that his research has been stolen to further this monstrous terrorist threat he and his young research associate Andrea Martin join a CIA mission to intervene Intervention requires Shane to link telepathically with his young father Daniel in the summer of 1939 With the world on the brink of global war Shane must guide Daniel through a bold attempt to rescue or to kill a brilliant Jewish atomic physicist in Hitler s grasp While Shane and Daniel fall under the spell of an aggressive 1939 lover with mysterious designs an alienated old flame must find a way to save the mission Much of this suspenseful venture evolves during a nostalgic overnight transatlantic flight on a Pan American flying boat with darkly mysterious forces working at cross purposes Fateful events during the 1939 flight are paralleled by political brokering in modern times climaxing with a shocking fateful confrontation between a stubborn American president and the charismatic leader of the secret society *Turned On!* S. P.

Perone,2014-09-17 No decade before or since witnessed cultural technical and social changes as dramatic as the 1960s Pop culture reflected a transition from the rigid 1950s to the permissive 1970s The Vietnam War spawned student protests draft card burning and a hippie counter culture Caught up in these turbulent times was author Sam Perone a nave young professor beginning his career at the tender age of twenty three young enough to run in student circles Perones unlikely arrival in 1962 at a prestigious university lacking credentials and experience launched an erratic journey laced with angst liberating diversions exciting research bitter conflicts dismal failures and exhilarating successes In *Turned On* he shares his own life story against the backdrop of the times A collection of personal experiences that characterize that turbulent decade this memoir tells about the time Perone got tipsy during his university job interview the weeks he slept in chemistry labs the explosions floods flashes pranks and jolts that marked his early research the wild parties fueled by lab alcohol his unexpected love affair in 1967 San Francisco the sometimes serious sometimes disturbing and always laughable instances of faculty clashes and finally his pivotal involvement in the minicomputer revolution *Turned On* describes a personal journey toward self realization in a world that was rapidly changing in fascinating ways It captures the impact on campus life of historical events that defined the 1960s but also provides insights to the inner workings of the academic world in that era and beyond

Perone, 2004-10 It is a world turned upside down a world created when a future time traveler re directs the course of World War II The United States has suffered six decades of oppressive fascist rule Now while a decimated band of expatriate American rebels fight to liberate their country international dissension threatens a nuclear holocaust Tony Shane a rebel with a dangerous incredible plan has inherited wartime secrets that might free his country a plan derived from Albert Einstein whose cryptic legacy conceals an improbable time travel strategy To unravel the secrets of

Einstein's tunnel Shane persuades Sarah Stenstrom a beautiful young scientist in a Nazi cyber research laboratory to join his cause But their intimate relationship soon threatens the entire mission Vito Mironi a powerful mob boss within a corrupt Nazi regime secretly supports the rebels But the reality of Einstein's plan soon converts Mironi into Shane's most dangerous adversary Joining Shane's desperate odyssey is a ruthless rebel assassin Salom with a burning personal agenda But only Nathan Carothers charismatic rebel leader knows the true dark purpose underlying their mission Confronted by surprising obstacles Tony Shane traverses a perilous path while racing a deadly doomsday clock to fulfill the promise of Einstein's Tunnel
