**Never Home Alone** Rob Dunn,2018-11-06 A natural history of the wilderness in our homes from the microbes in our showers to the crickets in our basements Even when the floors are sparkling clean and the house seems silent our domestic domain is wild beyond imagination In *Never Home Alone* biologist Rob Dunn introduces us to the nearly 200 000 species living with us in our own homes from the Egyptian meal moths in our cupboards and camel crickets in our basements to the lactobacillus lounging on our kitchen counters You are not alone Yet as we obsess over sterilizing our homes and separating our spaces from nature we are unwittingly cultivating an entirely new playground for evolution These changes are reshaping the organisms that live with us prompting some to become more dangerous while undermining those species that benefit our bodies or help us keep more threatening organisms at bay No one who reads this engrossing revelatory book will look at their homes in the same way again      **Bulletin of the International Railway Association** International Railway Association,1907

DYKE,1919      *HC 370 - Housing Associations and the Right to Buy* Great Britain. Parliament. House of Commons. Communities and Local Government Committee,2016 Following the 2015 General Election the Government announced that it was seeking to extend the Right to Buy to tenants of housing associations This policy alongside others such as the 1 per cent reduction in social rents and a pay to stay model which would charge differential rents according to tenant income was likely to have a significant impact on housing associations We therefore wanted to explore how their work and the services they provide might change and what the impact might be for the wider social housing sector and the provision of affordable homes Shortly

after our investigations began a deal to implement the extended Right to Buy on a voluntary basis was reached between the National Housing Federation and the Government We recognise that the voluntary deal is a way of delivering a key policy from the Government s Manifesto whilst maintaining the independence of housing associations However there remains much uncertainty in the wording of the agreement for example regarding whether associations which voted against it are bound by its terms and the extent of the discretion to decline sales The extended Right to Buy is designed to increase home ownership and increase housing supply We support these aspirations and the principle of giving people the opportunity to buy their own home Despite this we feel that there are unresolved issues and remain concerned that the Government s policies could have a detrimental effect on the provision of accessible and affordable housing across all tenures particularly affordable rented We are also concerned that the extended Right to Buy could hinder the provision of specialist and supported housing schemes Maintaining and protecting the provision of affordable housing in rural areas is also an issue that we believe needs to be addressed in order to protect our rural communities The terms of the voluntary agreement allow for portable discounts to be offered in place of certain properties but it remains unclear how this would operate
