**Starting With Foucault** C. G. Prado, 2018-03-05 Michel Foucault had a great influence upon a wide range of disciplines and his work has been widely interpreted and is frequently referred to but it is often difficult for beginners to find their way into the complexities of his thought This is especially true for readers whose background is Anglo American or analytic philosophy C G Prado argues in this updated introduction that the time is overdue for Anglo American philosophers to avail themselves of what Foucault offers In this clear and greatly revised second edition Prado focuses on Foucault s middle or genealogical work particularly *Discipline and Punish* and Volume One of *The History of Sexuality* in which Foucault most clearly comes to grips with the historicization of truth and knowledge and the formation of subjectivity Understanding Foucault s thought on these difficult subjects requires working through much complexity and ambiguity and Prado s direct and accessible introduction is the ideal place to start

[Starting With Foucault](#) C. G. Prado, 1995-06-27 In this clear straightforward introduction to Foucault s thought Prado focuses on *Discipline and Punish* and the first volume of *The History of Sexuality* in which Foucault most clearly comes to grips with the historicization of truth and knowledge and the formation of subjectivity This sympathetic but critical introduction is especially suited for readers more familiar with Anglo American philosophy than with Continental

*Critical Essays on Michel Foucault* Karlis Racevskis, 1999 Each volume in this series provides an introduction tracing the subject author s critical reputation trends in interpretation developments in textual and biographical scholarship and reprints of selected essays and reviews beginning with the author s contemporaries and continuing through to current scholarship Many volumes also feature new essays by leading scholars and critics specially commissioned for the series

[After Foucault](#) Lisa Downing, 2018-06-07 The work of Michel Foucault is much read widely cited and occasionally misunderstood In response to this state of affairs this collection aims to clarify to contextualize and to contribute to Foucauldian scholarship in a very specific way Rather than offering either a conceptual introduction to Foucault s work or a series of interventions aimed specifically at experts *After Foucault* explores his critical afterlives situates his work in current debates and explains his intellectual legacy As well as offering up to date assessments of Foucault s ongoing use in fields such as literary studies sexuality studies and history chapters explore his relevance for urgent and emerging disciplines and debates including ecology animal studies and the analysis of neoliberalism Written in an accessible style by leading experts *After Foucault* demonstrates a commitment to taking seriously the work of a key twentieth century thinker for contemporary academic disciplines political phenomena and cultural life

*Foucault 2.0* Eric Paras, 2006-04-17 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century s most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault s critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a

microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 2 0 draws on the full range of the philosopher s writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault s published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time Foucault 2 0 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike Journal of the Association for Research on Mothering ,2002 *Textualities* Hugh J. Silverman,2013-10-28

*Textualities* is both an account of recent developments in Continental philosophy and a demonstration of philosophy as a distinctive theoretical practice of its own It can be read as a presentation and evaluation of major figures from Heidegger and Merleau Ponty to Foucault and Derrida with detailed accounts of Nietzsche Sartre Levi Strauss Barthes Blanchot and Kristeva International Studies in Philosophy ,2004 *The SAGE Handbook of Qualitative Research* Norman K. Denzin (ed),Yvonna S. Lincoln,2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies *Canadian Philosophical Reviews* ,1996 *History and Forgetfulness in an "American" County* Linda Sue Heidenreich,2000 The Australian Journal of Education ,2005 **Radical Philosophy Review** ,2001 *From Subjugation to Theosis* Photios Zygoulis,2026-02-13 Academic Paper from the year 2026 in the subject Philosophy Theoretical Realisation Science Logic Language language English abstract This study examines the transformation of human freedom from the Enlightenment to the digital age arguing that modern autonomy has evolved into a sophisticated form of subjugation through disciplinary biopolitical and algorithmic mechanisms Drawing on Kant Nietzsche Foucault Butler and contemporary critical theorists the work analyzes how subjectivity is produced and governed within technological systems of power It then proposes an alternative anthropological horizon through the Orthodox concept of personhood and the notion of theosis understood not as mysticism but as an ontological mode of relational freedom By integrating genealogy of power with theological ontology the study advances the thesis that political liberation alone is insufficient in the age of digital governance and that genuine freedom requires a transformation of the human mode of existence itself Book Review Digest ,1996-10 *American Book Publishing Record* ,1995 *The Best Books for Academic Libraries: Religion and philosophy* ,2002 **Columbia Law Review** ,2001 *Rurality Bites* Stewart Lockie,Lisa Bourke,2001 An overview of the extraordinary social environmental political and cultural changes and conflicts sweeping rural Australia All too often community decline environmental degradation and agricultural restructuring are treated as
