Talking Democracy:

Talking Democracy Benedetto Fontana, Cary J. Nederman, 2010-11-01 While emphasising discursive and historical dimensions of democracy the resources available in the history of rhetorical theory and practice tend to be ignored This book aims to resurrect this history and show how attention to rhetoric can help lead to a better understanding of the strengths and limitations of theories of deliberative democracy

Talking Democracy Benedetto Fontana, Cary J. Nederman, Gary Remer, 2004-09-17 In their efforts to uncover the principles of a robust conception of democracy theorists of deliberative democracy place a premium on the role of political expression public speech and reasoned debate as the key to democratic processes They also frequently hark back to historical antecedents as in the Habermasian invocation of the public sphere of eighteenth century bourgeois society and the Arendtian valorization of the classical Athenian polis in their quest to establish that deliberative procedures are more than merely theoretical and instead have a practical application But for all this emphasis on the discursive and historical dimensions of democracy these theorists have generally neglected the rich resources available in the history of rhetorical theory and practice It is the purpose of Talking Democracy to resurrect this history and show how attention to rhetoric can help lead to a better understanding of both the strengths and limitations of current theories of deliberative democracy Contributors besides the editors are Russell Bentley Tsaee Lan Lee Dow Tom

To Keep the Republic Elizabeth C. Matto, 2024-04-12 American democracy has reached an inflection point This book is a wake up call about the heavy responsibilities that come with being a citizen in a participatory democracy It describes the many ways that individuals can make a difference on both local and national levels and explains why they matter

When the People Speak James S. Fishkin, 2011 All over the world democratic reforms have brought power to the people but under conditions where the people have little opportunity to think about the power that they exercise In this book James Fishkin combines a new theory of democracy with actual practice and shows how an idea that harks back to ancient Athens can be used to revive our modern democracies

When the People Speak outlines deliberative democracy projects conducted by the author with various collaborators in the

US China Britain Denmark Australia Italy Bulgaria Northern Ireland and in the entire European Union These projects have resulted in the massive expansion of wind power in Texas the building of sewage treatment plants in China and greater mutual understanding between Catholics and Protestants in Northern Ireland *Civic Education in the Twenty-First Century* Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters **Official Proceedings** Western Railway Club, 1921 *American Economist* , 1906

Year Book Illinois Farmers' Institute. Department of Household Science, 1926 *Talking with Harry* Harry S. Truman, 2001-03 In his eight years as president from 1945 1953 Harry S Truman made some of the most important decisions in U S history particularly in foreign policy matters This book contains transcripts of conversations with Truman from taped interviews in 1959 The probing questions and straightforward answers cover a wide variety of domestic and foreign policy

issues ranging from civil rights in the South to using the atomic bomb on Japan This book provides a vivid portrait of Truman warts and all Through his answers to questions the threads of his political loyalty bluntness frustration decency thrift humanity and humor become a tapestry of his presidential character His intense pride and manner surface especially as he explains bitter political and domestic controversies as well as foreign policy decisions These interviews reveal Truman s bedrock foundation of deeply held political beliefs as he gives thoughtful answers to queries about major political issues In addition he discusses American presidential history Congressmen such as Sam Rayburn and Lyndon Johnson Supreme Court Justices and dozens of other well known political leaders including Dwight D Eisenhower Adlai Stevenson and John F Kennedy In similar fashion he describes numerous foreign leaders including Joseph Stalin Adolf Hitler Benito Mussolini Winston Churchill and Chiang Kai Shek Evident as well is his firm loyalty to the United States his family his friends and the Democratic Party Truman also divulges some of his personal dislikes particularly of political opponents such as Richard M Nixon and for over a decade after 1952 Dwight D Eisenhower However his personal resentments are more than matched by his fair minded judgments of former President Herbert Hoover American farmers laborers and racial groups Discovered by Ralph Weber at the Harry S Truman Presidential Library the interviews were originally to be used as background for Truman s book Mr Citizen 1960 but most of Truman s observations and answers were not included in that book Professor Weber has omitted very little of the original transcripts and has kept the conversations in the same order revealing the ebb and flow of the questioning He includes an introduction annotations brief biographies of the people Truman discusses in the interviews and photographs to provide context for the reader This revealing new book is an excellent addition to courses on American twentieth century history and the presidency
