Krishnamurti,2022-09-09 In these Talks given in India and Saanen Krishnamurti speaks to the necessity for a new way of
looking thinking and being in the world What is the effect or value of an individual changing How will that transform the
whole current of human existence What can an individual do there is no such thing as an individual consciousness there is
only consciousness of which we are a part You might segregate yourself and build a wall of a particular space called the me
But that me is related to the whole that me is not separate And in transforming that particular section that particular part we
will affect the whole of consciousness And I think this is very important to realize that we are not talking about individual
salvation or individual reformation but about being aware of the particular in relation to the total Then out of that realization
comes action which will affect the whole **Catalogue of Copyright Entries ...** Library of Congress. Copyright Office,1916
